INVESTIGATION OF STRIKE UNDER WAY

Federal Authorities Start Inquiry
Into Unauthorized Walkout of
Miners in Three States.

OPERATORS ARE IN SESSION

Indiana Miners Will be Asked to Re-
turn to Work Tomorrow Pending
Adjustment of Dispute.

(By United Press.)

Federal investigation of the unauthorized strikes of coal miners in Illinois, Indiana and Kansas was under way today as mine union officials and operators began maneuvering for peaceful settlement independent of government action.

Thomas T. Brewster, chairman of the operator's committee of Central competitive field, in response to the telegram from John L. Lewis, international miners' president, today called a conference of operators in Indiana, Ohio, Western Pennsylvania and Illinois to determine whether to accept the plan for a joint conference with the miners.

Operators in the four states went into separate conferences early today. They were to telegraph their decisions to Brewster at St. Louis who said he would accept the majority decision.

Union officials were in executive session in Indianapolis drafting the proposal for presentation to the operators.

Closing of industrial plants in the middle west began today, according to reports. Steel mills in Gary, Indiana, and the Calumet district began laying off workers and curtailing operations because of coal scarcity.

Chicago officials seconded the rationing of water supplies. Many concerns were burning oil.

Terre Haute, Ind., July 28.—Coal miners on unauthorized strike in Indiana fields will be requested to return to work tomorrow, pending an effort to adjust wage demands of day workers, it was decided at a meeting of union officials here today.

Ten delegates representing the day men of all mine locals in the district of Indiana, meeting with District President Ed Stewart and Secretary William Mitch here today, decided to recommend this action to their constituents this afternoon.

Two weeks will be granted the officials in which to reach an agreement with the operators, it was decided, and if the wage awards at that time are not satisfactory, the men will again be at liberty to leave their work.

The delegates will submit this plan to the miners' union and a mass meeting at four o'clock this afternoon for popular approval. If the men reject it they will very likely remain on strike. Reports to the district union headquarters here today indicated that about 75 out of 80 miners in Indiana were idle, because of strike of day laborers in demand for coalization of wage rates. They have been out on strike through dissatisfaction with the awards of national coal commission which they say made their wage lower corresponding with those of other miners.

Although a few more mines in the central Indiana coal field closed today the situation remained about the same as yesterday. No disorder has been reported and in most regions the miners insist that they are not on strike. They say they have "quit." Both the Mine Workers' officials and the operators are reluctant about giving out figures and estimates on the number of men idle run from 7,000 to 22,000.

Officials of the United Mine Workers of America say that the miners will head any procession from John L. Lewis president of the national union. William Mitch, secretary of the Indiana district, 11, at St. Louis said today that Mr. Lewis is doing everything in his power to help the day men and still consider the public. He is always trying to do the best thing for the men and the public. "If they are with him," Mr. Mitch said.

Although the situation in the district is serious, both operators and

BODY IDENTIFIED TODAY

One Found in Trunk Is That of Mrs.
Katherine Leroy

(By United Press.)

New York, July 28.—The body of a woman found in a trunk here, was positively identified by Mrs. Leo Trumbull of Detroit today as Mrs. Katherine Leroy of that city.

"That's her, That's her," Mrs. Trumbull screamed hysterically when the body was uncovered. She grew faint and was quickly led from the room. Her husband, a patrolman of Detroit, also identified the body as that of Mrs. Leroy. The identification was made in the presence of Robert Speed, assistant prosecutor of Detroit, and several detectives from that city. The Trumbulls were expected to leave for Detroit today.

MURDER SUSPECT IS NOW SAFE IN MEXICO

E. E. Venderne, Alias Eugene Leroy,
Alias Wood, Believed to Have
Crossed the Border.

HIS MOVEMENTS ARE TRACES

(By United Press.)

Detroit, Mich., July 28.—E. E. Venderne, alias Eugene Leroy, alias Wood, sought in connection with the New York-Detroit murder mystery, is now in Saltillo, Mexico, according to word received here today by Chief of Detectives Fox from San Antonio police.

According to the message received by Fox, an old man named Venderne thought to be the father of E. E. Leroy has been located in that city. The story told by the man regarding the movement of his son who is said to answer closely to the description of Leroy, fits in perfectly with the movements of Leroy so far as they have been traced during the past few months, the message said.

The man said that his son passed through San Antonio several days ago on his way to Saltillo and probably will arrive there by this time, according to the message.

REDUCTION IN SUGAR PRICE NOT FELT HERE

Fair Price Commissioner Announces
Drop of 12 Cents, But it
is Selling Here at 28 Cents

DECLINE OF 2 CENTS RECENTLY

A reduction of 12 cents a pound in the price of sugar, effective today, which was announced in morning newspapers by Stanley Wyckoff, fair price commissioner for Indiana, has not been felt here although sugar is selling two cents less on the pound than it did a few days ago. The general price until recently was 30 cents, but the highest price asked by Rushville merchants today was 28 cents.

Mr. Wyckoff says the reduction makes the price of retail sugar in Indiana about 25 cents. Local dealers, when asked about this statement today, said that Indianapolis retailers might be able to sell sugar for 25 cents, but that when freight and drayage from Indianapolis is tacked on, they have to charge more.

One grocer agreed with Mr. Wyckoff that there is more sugar available now than at any time since last May, and another said that a wholesaler told him yesterday sugar was very scarce and would be harder to get for the next few weeks on account of the demand during the canning season. Some local dealers are anticipating a break in the sugar market in September, when they expect the price to decline.

RIVERSIDE FEELS QUAKE

Riverside, Calif., July 28.—Riverside was shaken today by earthquakes shortly before eight o'clock today. The tremors lasted five seconds. No damage was done, according to the police reports.

ASSESSMENTS ARE SENT TO AUDITOR

Valuations Placed on Railroads And
Interurban Company by State
Tax Commissioners

THE TOTAL IS \$3,346,705

Combined Assessments of Four
Railroads Amount to \$2,912,900
And I. & C. \$433,805.

The assessments of the transportation companies operating in Rush county, which were fixed by the state board of tax commissioners, have been received at the county auditor's office and will be apportioned among the townships and other taxing units according to the mileage of such companies and the location of the improvements.

The total taxable value of the transportation companies' holdings in Rush county amount to \$3,346,705, which includes the property of the four railroads and the Indianapolis & Cincinnati Traction company. The assessments are approximately the same as last year.

There is a total of 77.17 miles of main line railroad track in the county, which is assessed at \$2,316,430. There are 10.54 miles of siding, which is valued at \$67,170. The railroad rolling stock is assessed at \$915,390 and improvements at \$14,000. This is all exclusive of the I. & C. valuations as they are assessed separately.

The railroad assessments amount to \$2,912,900 and the interurban line at \$433,805. The C. I. & W. railroad pays taxes on a large valuation because all of its property is assessed together, amounting to \$867,790. The Columbus division of the Pennsylvania has the highest assessed valuation on main line track, it amounting to \$150,000 a mile.

The assessments are as follows: Chicago, Indianapolis & Western. Indianapolis division—mileage in county, 18.41; \$40,000 per mile; total, \$736,400; side track, 2.7 miles at \$6,000 per mile, \$16,200; rolling stock, \$110,460; improvements, of right of way, \$4,730; total, \$867,790; Cleveland, Cincinnati, Chicago & St. Louis. (Michigan division)—mileage in county, 14.3; assessed at \$30,000 a mile; total \$429,000; 3.21 miles of side track at \$7,000 a mile, \$22,470; rolling stock, \$85,800; improvements, of right of way \$2,000; rolling stock on Ft. W. C. & L. (L. E. & W.) \$750; total \$540,020.

Ft. W. C. & L. (Rushville branch) 12.87 miles of main track at \$15,000 a mile, \$193,050; 1.32 miles of side track at \$5,000 a mile, \$6,600; rolling stock, \$51,480; improvements, \$1,970; total, \$253,100.

P. C. C. & St. L. (Pennsylvania). Columbus division 43 miles at \$150,000 a mile, \$6,450,000; .04 miles of side track, at \$15,000, \$600; rolling stock \$8,600; total \$73,700.

P. C. C. & St. L. (Cambridge City branch of Pennsylvania) 20.51 miles of main line at \$28,000 a mile, \$574,280; 1.68 side track at \$7,000 a mile, \$11,760; rolling stock, \$205,100; improvements, \$2,150; total \$793,290.

Vernon, Greensburg & Rushville. (Big Four south) 10.64 miles of main line at \$30,000 a mile, \$319,200; 1.59 miles of side track at \$6,000 a mile, \$9,540; rolling stock \$53,200; improvements, \$3,150; total \$385,090.

Indianapolis & Cincinnati Traction Co.—18.73 miles of main line at \$15,000 a mile, \$280,950; 1.82 miles of second main at \$10,000 a mile, \$18,200; 1.26 miles of side track at \$5,000 a mile, \$6,300; rolling stock, \$28,095; improvements, \$100,260; total \$433,805.

MANY FIREMEN OVERCOME

Chicago, July 28.—Twenty firemen were overcome today while fighting a fire that practically destroyed the beef house of Armour & Co., a five-story structure, covering a block at the stock yards. The flames menaced a million dollars worth of beef.

PROSPECTS GOOD FOR CORN YIELD

Bumper Crop is For County Indicated
Because of Rapid Growth
In The Last Month

ACREAGE UNUSUALLY LARGE

Weather Highly Favorable And
Rains Come at Time to be of
Benefit to Late Plantings

A bumper crop of corn in Rush county this fall is in prospect and the farmers are optimistic over the condition of the fields. Corn in this vicinity has made very rapid advancement during the last two weeks and the farmers say it has a fine, healthy color. Ears are already forming in many fields which were planted early and in others the stalks are tasseling.

Because of the weather conditions this spring there was a large acreage of late planted corn and for a while farmers were concerned lest it would not mature. The growth of some of the late planted fields seemed to be retarded but during the last month the stalks have grown considerably and it is now thought that practically all the corn will mature unless a frost should come at an exceptionally early date.

The corn acreage in this county this year is unusually large. Some of the ground which was sown in wheat last fall was plowed up late in the spring when it was seen that the wheat would be a failure. It is believed that the acreage is the largest ever planted in corn and with an average yield the total value of the crop will exceed all former figures. The demand for corn is heavy as many farmers are feeding practically all they produce. The corn market one year ago opened at slightly more than a dollar a bushel and the price continued to climb until as high as \$2 a bushel was paid this spring. However, the top price did not remain long for in a few days after it was announced the decline started. A large part of the corn crop in this county last year was sold from \$1.75 to \$2 a bushel. Producers do not believe that the prices this year will be greatly different from those which prevailed last year and for this reason are tending all the ground that they can.

The wheat thrashing in Rush county is well under way but the yield is not as heavy as first anticipated. The total crop will not reach the average yield for this locality. The thrashing crews have a week or more of work before they begin to put up their machines. Most of the crews are thrashing oats at the same time that the wheat is thrashed. This plan is more satisfactory to farmers as it is not necessary for the machines to be returned to their farms a second time. The hay crop in Rush county is said to be good this year. There was an abundance of timothy and the alfalfa fields also yielded well. The clover in some sections was exceptionally good and it is reported that the prospects for a good seed crop are favorable.

In a very short time farmers will begin plowing for wheat. It is believed that the acreage will be large because of the short crop this summer.

REDS VIOLATE ARMISTICE

Resume Violent Attacks on Poles
Along Whole Line

(By United Press.)

Warsaw, July 28.—Despite the armistice entered into by the Bolsheviks and the Poles, the red armies have resumed violent attacks over the whole front south of Grodno, it was announced today. They have advanced 20 kilometers.

Paris, July 28.—The Polish army battered by the Bolsheviks, is retreating along the entire front, according to dispatches to the foreign office today.

Resistance is very feeble at both extremities of the line, it was said.

DESERTION CHARGE FILED

Warrant Issued For Arrest of Wil-
liam Franklin in Illinois

A warrant for the arrest of William Franklin, alias W. W. Jackson, was issued today in Squire Stech's court, on two charges, one for wife desertion and the other for child desertion. Special Constable John Wolter, accompanied by C. W. Duncan, attorney, left this morning for Illinois, where it was learned that Franklin was working.

It was expected that he would be brought here late tonight and given a hearing immediately. The charges were filed by his wife, who was formerly Marie Manliet of Noble township. Franklin worked in this city and went under an assumed name of W. W. Jackson.

DIES 10 DAYS AFTER DEMISE OF HIS WIFE

A. M. Fry, Washington Township
Farmers, Expires This Morning
of Acute Nephritis

FUNERAL AT 2 P. M. FRIDAY

A. M. Fry, a prominent farmer of Washington township, living northeast of this city, expired this morning at 4:45 o'clock, after an illness of two months, death being caused from acute nephritis. The deceased was 67 years old at the time of his death.

Mr. Fry died exactly ten days following the death of his wife, who expired a week ago Monday, at the same hour of the early morning. He had been in failing health for some time, and little hopes for his recovery were held out, following his wife's death.

The deceased is survived by one brother Benton, of Eaton, O., and one sister, Mrs. Hahn, and an adopted son, Alfred, who lives near Sexton. The funeral services will be held Friday afternoon at two o'clock at the Raleigh church, and burial will be made in the cemetery nearby.

FIREMEN'S BILL NOT TO APPLY IN RUSHVILLE

Measure Changed so as to Effect
Only Indiana Cities of 15,000
or More Population.

GOODRICH OBJECTED TO IT

The bill in the legislature, compelling all cities in Indiana with a regularly organized paid fire department to adopt the two-platoon system, which was passed by both houses and awaited the signature of the governor, has been withdrawn on account of objections of Governor Goodrich, and a new one providing the measure shall apply only to cities of 15,000 population or more, has been introduced in the senate and passed by that body.

It is understood that Governor Goodrich objected to the bill on the grounds that a number of Indiana cities under 15,000 population did not wish to adopt the two platoon system. Had the bill been signed by the governor as it was originally, the number of firemen in Rushville would have been doubled and they would have been on duty in shifts of twelve hours each. Under the present arrangement, they are on duty twenty-four hours a day, with one day a week off. According to the provisions of the measure, the firemen would have been subject to call at any time in case of an emergency, even though it were not their shift on duty.

OFFICER TO GUARD BANKS

Anderson, Ind., July 28.—In view of the fact that numerous bank robberies have occurred over the country the police board has named a special officer whose duty shall be to guard the district in which banks here are located.

DAY IS DEVOTED TO CONFERENCES

House and Senate of Special Ses-
sion Mark Time While Confer-
ees Seek Agreement

TAX BILLS STILL IN THE WAY

Some Legislators See Possible Ad-
journing by Tomorrow Night—
House Passes a Bill

(By United Press.)

Indianapolis, Ind., July 28.—In order to give the conference committee an opportunity to function, the senate of the special legislature adjourned shortly after meeting in the morning session today.

The house passed Senator Hagston's bill authorizing the establishment of a two platoon fire system in towns of over 15,000 population and this measure is ready for the governor. The vote was 73 to 1. Governor Goodrich vetoed a previous bill of this kind because it applied to all cities regardless of population.

It was a question of marking time in both bodies while the committees from both the house and senate met in joint session and threshed out senate amendments to important house bills.

Immediately after the committee adjourned until this afternoon, the conferees went into session. Their doors were still locked and there were conflicting reports as to whether an agreement was in sight.

As the committee met behind closed doors, some legislators saw possible adjournment by tomorrow night.

The two important bills on which the conferees must agree before adjournment is possible are the two taxing measures, one of which restores absolute control over tax levies and bond issues to local taxing units and the other overcoming the order of the supreme court's decision holding illegal the tax board's horizontal increase in property valuations.

Troublesome points of difference among members of both houses about methods to be included in the bill to adjust conditions caused by nullification of horizontal tax assessment increases, and the bill to restore to counties control of tax levies and bond issues, were still evident when the houses took up their sessions today, but leaders felt that these differences could soon be removed in such a manner that acceptable tax legislation could be had.

The fact that a joint conference committee on a world war memorial bill practically has agreed on a plan for the state to fix a levy, Continued on Page Three

EFFECTS OF STRIKE NOT FELT HERE YET

Movement of Coal Slow For Weeks
and Factories Have Been on
Hand-to-Mouth Policy

SEE SERIOUS PLIGHT LATER

Although many industries in Indiana, Illinois and Ohio are closing down because of the shortage of coal, due to the unauthorized strike of miners, local industries are not finding the shortage any more serious than it has been for several weeks.

On several occasions recently local factories and the Indianapolis & Cincinnati traction line power house have averted closing only by borrowing coal from some other concern in Rushville. Last week the city water, light and power plant loaned the I. & C. power house a car of coal and prevented a temporary shutdown.

The managers of local industries are expecting to feel the effects of the closing of mines in this section later, when the coal begins to slow down. As conditions have been all summer, factories have been unable to lay up a supply, existing on a hand-to-mouth policy.

PLANS IMPROVEMENT FOR RURAL SCHOOLS

State School Superintendent Hines Asserts That There Are 4881 One Room Buildings In State

TEACHERS ARE VERY SCARCE.

Indianapolis, Ind., July 28—Plans are under way for an active campaign to improve the rural schools in Indiana according to State Superintendent of Schools L. N. Hines. Hines returned recently from a five day conference of rural school superintendents.

Hines said that well known men and women speakers would discuss the state in the campaign. "There are 4881 one-room rural schools in Indiana as far as reports have been received", he said. Fully one half of this number will be without teachers this fall. Our rural situation is far from encouraging. We spend approximately twice as much on city education as we do for education of the country child."

TILDEN CHAMPION TENNIS PLAYER

Also Credited With Unselfish Interest He Has Shown in Getting Youngsters Interested in Game

NEW KING ONLY 27 YEARS OLD

Tilden Combines Most Up-To-Date Methods of Play, Court Game and Unusual Volleying Ability

HENRY L. FARRELL

New York, July 27—World champion at tennis is an impressive title, but the greatest thing the friends of William T. Tilden, the boy king of the courts say about him is that "he's a real fellow and a good sport." Tilden's feat in winning the world's championship at Wimbledon from Gerald Patterson was the greatest thing achieved for American tennis. But it wasn't the first thing that this tall, lanky Philadelphia had done for the game in the United States.

The unselfish interest that he has always shown in getting youngsters interested in the game has been one of the biggest factors in raising tennis from an alleged "pink tea" sport to a place where it ranks as a real national pastime.

Tilden is far from a veteran himself, being only 27 years of age, but he has always shown an admirable inclination to neglect the furtherance of his own game in coaching along youngsters.

He is credited with "making" Vincent Richards, the eighteen-year-old Fordham youth whose prowess on the courts has been the inspiration of all kind players.

A friend of the champion's in Philadelphia recently spoke of a conversation in which Tilden had told him several years ago:

"Tennis of the future depends upon the youngsters of today. I figure I can do more for the game by helping the youngsters along and getting embryo champions on the way than by campaigning for laurels myself." He followed this policy with great success around Philadelphia.

Many branded Tilden's victory in the Wimbledon matches as a surprise. It was, but it should not have been.

For two years the big star has been playing just the kind of tennis that enabled him to overcome the pick of the world's players and win the championship.

He never became the American national champion, but he was the hardest opponent Champ Billy Johnston had to defeat last summer at Forest Hills.

Tilden started his ball for fame in 1918 when he was ranked as No. 2 among the American players. In 1919 his game had become so good that he became the champion of the Philadelphia district, the Schuylkill Valley, Newport, North and South, Seabright and Delaware. Again he was rated second in the first ten.

This spring he won the indoor national championship and, paired with young Vincent Richards, whom he defeated for the singles title, he won the doubles championship. With Richards he also won the doubles championship at Seabright and the North and South tournament and annexed the Schuylkill Valley crown with Rodney Beck.

Of Tilden's game, Paul Williams, secretary of the United States Lawn Tennis Association has the following to say:

"Tilden depends on a wide variety of strokes, from a slow teasing twist to a lightning like straight ball. From the baseline he uses both the chop and drive, forehand and backhand. When pressed he assays the net at every opportunity depending upon his reach and ability to block attempted passes. Unusually good headwork is the basis of his success."

He studies his opponent's game and rarely makes a mistake in judgment. On the whole he combines the most up-to-date methods of play, possesses a shaggy flighted edge, possessing as he does, a sound back court game and unusual volleying ability.

DYNAMITING EXPENSIVE

Indianapolis, Ind., July 28—Dynamiting fish in White river near Worthington proved exceedingly expensive for Richard Dunn and Jesse Mullins, according to an announcement this morning by George N. Mummefeld, superintendent of fisheries and game under the state conservation department. Arrested by wardens the men three hours after apprehension pleaded guilty on arraignment in the circuit court at Bloomfield and each paid a fine and costs amounting to \$262.20.

FORMS GAME ASSOCIATION

Indianapolis, Ind., July 28—A fish and game protective association with forty charter members has been organized at Lake Maxinkueke, near Culver. A. E. Bodine, organizer for the state conservation department writes to Richard Lieber, director. Officials of Culver Military Academy took an active part in the organization work and several academy officers have been elected officers in the new organization.

13,000 IN K. OF P. PARADE

Cleveland, July 28—Today's program of the national encampment of the Knights of Pythias being held here this week included a parade of 3,000 men of the nineteen brigades of the uniformed rank and 10,000 members of the nonuniformed section. Major-General William H. Loomis, of Grand Rapids, and his staff led the parade. The Massachusetts brigade was first in the line of march and that from Washington state, second.

ACCEPT APPOINTMENTS

Richmond, Ind., July 28—W. W. Reller has accepted the position of city attorney and Matthew VonPein that of president of the board of works, tendered them last night by the citizens' committee after Mayor W. W. Zimmerman had confirmed the selection. Reller is a law partner of Byram C. Robbins, who resigned last week and VonPein has been a member of the city Council for many years. Their acceptance it is believed, will restore harmony in the city government.

Accountants to be Employed to Straighten Out Tangle at Defunct Milton Bank

BANK BOOKS ARE MISPLACED

Richmond, Ind., July 28.—James Doddridge, stockholder of the Doddridge-Grave Decorating Company of Milton, said today accountants are to be put on the books of the company to ascertain its financial condition. Officers of the company, he said, decided on this action when they learned that the company's bank books, supposed to be at the Farmers Banking Company, could not be found there. The bank was placed in the hands of a receiver a few days after Oscar Kirlin, the cashier, ended his life by shooting himself.

Claude Kitterman of Cambridge City, receiver of the bank, said today that he had not completed his investigation. Cashier Kirlin was secretary-treasurer of the decorating company. Seafe Reid, a tenant farmer residing near Milton, said his bank book had not been out of the bank for eight years. A few days ago he was astonished when he received notice that he had overdrawn his account \$9,000. D. O. Clevenger, probably one of the largest land owners in Washington township, said he was informed that the defunct bank held one of his notes. He said that to the best of his knowledge he had not executed the instrument.

Gas for Balloons.

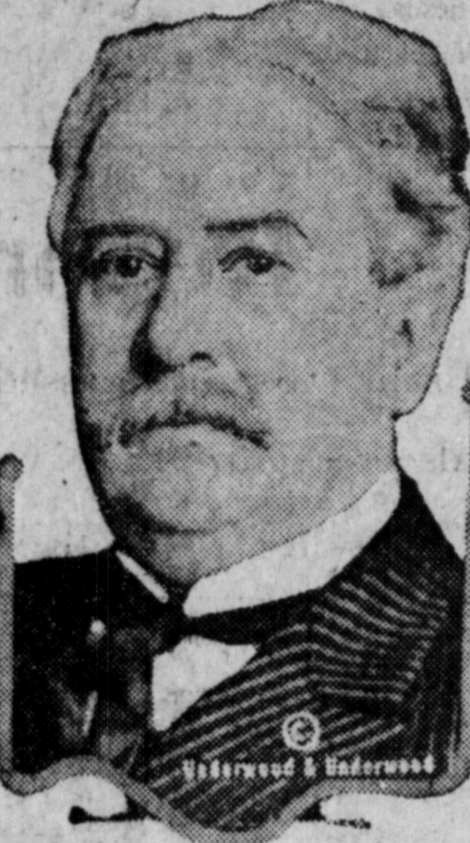

Hydrogen is the gas most commonly used for balloons. It requires about 1,250 cubic feet to lift a balloon weighing 100 pounds. Coal gas is sometimes used, as it is cheaper, but is not entirely satisfactory because of its great heaviness.

MUST PAY FOR DEFICITS
Government Will be Called on to Give Railroads \$49,000.

(By United Press.)

Washington, July 28.—The government under its agreement with the railroads soon will be called on to pay them at least \$490,000 to meet the deficits incurred during March, April, May, June, July and August, Director Tarmelle, of the bureau of railway economics estimated today. Tarmelle characterized this estimate as very conservative.

DAY IS DEVOTED TO CONFERENCES

Continued from Page One

which will raise about \$2,160,000 for the memorial, with St. Clair park and the grounds of the Indiana institution for the blind in Indianapolis as a site; and provision for co-operation by Indianapolis and Marion county in acquiring as a part of the memorial grounds the two blocks between the institution for the blind and University park, makes a considerable advance toward the session's close. The administration bill for regulating the prices and distribution of coal in Indiana, which was the subject of conference debate, has now been passed by both houses.

Conferees on the tax questions began deliberations in the morning, and there were prospects that the members of the committee which is considering the amended Johnson house "home rule" bill and the Tuthiss house horizontal tax rate legalization bill, which was amended in the senate by substituting what is known as the Kiper bill, would freely exchange views for the purpose of arriving at a mutual solution. Some talk is heard of combining the vital elements of the two bills and reporting out one bill, which is designed to take care of the whole situation.

INVESTIGATION OF STRIKE UNDER WAY

Continued from Page One

miners were inclined to believe that the situation will be relieved in a short time and they are not expecting a prolonged tie up of the mine industry.

Phil H. Penna, secretary of the Indiana Bituminous Coal Operators' Association, is in Pittsburg, presumably to attend a conference of operators.

At the office of the Coal Operators' Association today it was announced that from sixty to seventy-five mines are closed, and that about 10,000 of 30,000 miners in District 11 are idle as a result of the strike. Attention was called to the fact that many of the mines idle yesterday were shut down because cars could not be obtained and for reasons other than the strike. They said that the regions affected by the strike are those of Jasonville, Bicknell, Clinton and Terre Haute.

SCOUTS NOW IN 52 COUNTRIES.

Few people realize the magnitude of the boy scouts as a world movement for boyhood betterment. There are boy scouts now in 52 nations. When you stop to consider that there are at present approximately 500,000 scout leaders in the United States alone and that a million and a half boys in this country have had the benefit of scout training during the ten years since the movement started, you can see that if scouting is conducted on anywhere near so great a scale in other countries the figures are staggering. The fundamentals of scouting are the same everywhere, so, though each country is organized independently, the boy scouts is really one great big world movement, perhaps numerically the largest ever known.

EDWARD J. GILSON IS DEAD
Succumbs to Cancer After Three Years Illness

Edward J. Gilson for over three years a sufferer with cancer, expired last night at ten-thirty o'clock at his home, 120 East Fifth street, at the age of 42. The deceased is survived by a wife and the following children, Ellnora, Bernard, Lillian and Emsley. The funeral services will be conducted at the late residence Thursday afternoon at two o'clock, and burial will be made in East Hill cemetery.

The deceased was engaged in training race horses, prior to his becoming critically ill with cancer, but for the last two years he has been compelled to remain at home.

The kitchen committee of the Little Flatrock Christian church will give an ice cream festival at the auditorium in the school building at New Salem Friday, August 6.

LICENSED TO WED.

A marriage license was issued yesterday afternoon to William O'Brien of Connersville and Grace Couch, daughter of Mr. and Mrs. William Couch of this city.

Duty to Posterity.

I would submit to a severe discipline, and to go without many things cheerfully, for the good and happiness of the human race in the future. Each one of us should do something, however small, toward that great end.—Richard Jefferies.

BIG PUBLIC SALE

I, the undersigned, having decided to retire from business will sell at auction absolutely all my property, both real estate and personal on

WEDNESDAY, AUGUST 18, 1920
SALE TO START AT 9:30 A. M. SHARP.

335 - Acre Farm At Auction - 335
Two Miles East of Rushville.

This farm, we think to be one of as good as you will have an opportunity to buy, as it is good rich, sugar tree land and has been seeded to clover regularly and I expect has had more hogs fed on it than any same amount of acres in Rush county.

Buildings are in good shape—Two houses, two barns and other buildings, extra good and complete, tool sheds, cribs, hog houses. Fencing in good average shape. Ditching extra good. Out of the 335 acres, 300 of same is good plow land, balance good pasture land with never failing running spring water.

As this is probably one of the largest tracts of land ever sold at auction throughout this section, we will offer it in lots of from one-fourth up to the entire body, giving everyone a chance at this great opportunity.

All Personal Property to be Sold on Same Day and on Premises.

There will be a big lunch served at noon and we insist that you come out and spend the day with us and witness one of the biggest sales ever held in Southern Indiana.

TERMS MADE KNOWN IN A FEW DAYS

Rheumatism Comes

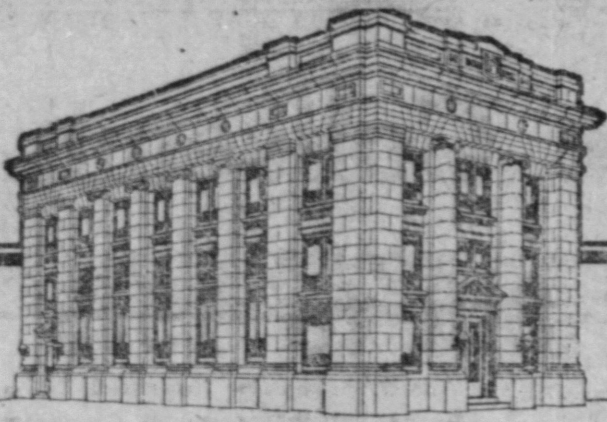

From Tiny Pain Demons

Disease Caused by Germs in the Blood.

Medical scientists differ as to the causes of every form of rheumatism, but agree that when caused by a tiny disease germ, the only effective method of treatment, is to attack the disease at its source, and cleanse the blood of its cause.

This is why S. S. S., the greatest known blood purifier is so successful in the treatment of Rheumatism. It is a powerful cleanser of the blood, and will remove the disease germs that cause your Rheumatism, affording relief that is genuine.

S. S. S. is sold by all druggists. Free literature and medical advice can be had by writing to Chief Medical Adviser, Swift Laboratory, Atlanta, Ga.

Vocational Aid For Children

Many colleges now have vocational guidance directors whose work it is to help undergraduates prepare for after graduation job hunting. In some cases the guide is a member of the faculty whose time is divided between teaching and vocational service. The more advanced step is to have the vocational directorship considered as a fulltime job. The purpose of such work is to enable the young man or woman just out of school to avoid several years of drifting and feeling about before finding the right work for his talents and training.

There is another great group of workers who receive almost on vocational guidance or advice of any sort and who therefore enter "blind alley" jobs, rarely advancing to better positions. These are the million or more children who leave school each summer and become wage earners.

As a rule the boys and girls who go to work as soon as the law permits receive no helpful advice from parents. It is estimated that nine-tenths of them take any work that offers, usually unskilled and with low wages. And because they have little or no technical training and no knowledge of the means for acquiring it, they stick to their first jobs or drift about in similar work without learning new processes or advancing to higher opportunities.

The Children's Bureau of the U. S. Department of Labor is strongly urging that vocational or placement departments be organized either in the public schools themselves or in close co-operation with them. It should be the work of such organizations to place the children in positions where opportunity to become proficient in more than one operation is offered, where there is possibility for advancement and for further training. It might be well, too, to require attendance at continuation schools and to provide some sort of follow-up system to insure the young worker's having greater opportunities before his ambition by a monotonous round in a blind alley job.

No Essential Difference

The Washington correspondent of the New York World, supposed to have inside information, writes as follows:

"The reservations proposed by the Ohio Governor are considered to be mainly interpretative and do not, as in the case of the reservations proposed by the Republican Senators led by Senator Lodge, nullify or in any way affect materially the wording of the original draft of the Covenant."

Governor Cox's most important

reservation is to Article X. Here it is:

"It will of course be understood that in carrying out the purpose of the League the Government of the United States must at all times act in strict harmony with the terms and the intent of the United States Constitution, which cannot in any way be altered by the treaty-making power."

The so-called Lodge reservation to Article X reads as follows:

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country or to interfere in controversies between nations. . . . under the provisions of Article X, or to employ the military or naval forces of the United States under any article of the Treaty for any purpose, unless in any particular case the Congress, which, under the Constitution has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide."

There is no essential difference between the Cox and the Lodge reservation; yet President Wilson declared the Lodge reservation "cut the heart out of the Covenant," and now declares (or his White House agents make him so declare) that he will accept the Cox reservation.

The porch at Marion, says the Washington Post (Ind.) is a mighty good sounding board as well as a whispering post.

Senator Glass who was quoted at Frisco as saying "Cox won't do" is now quoted as adding in Washington "Cox is the best man that could have been chosen."

Want to have people running after you and begging for permission to take your picture free of charge? Easiest thing in the world. Just get yourself nominated for the presidency.

Some men are lavish in the extension of praise for work well done—but most of it is given to themselves.

Don't be too hard on the fellow who delivers free lectures on the street corner. It's probably the only place he can induce people to notice him.

Matches that are supposed to have been "made in heaven" should stay there. The divorce court's jurisdiction does not extend that far.

Sap and Salt

By BERT MOSES.

You never find much wisdom where there is much noise.

Love to most girls is a mere matter of giggling and wiggling.

No matter how mean a thing you do, it is easy to give a reason for doing it.

There isn't much difference between any of us when it comes to doing foolish things.

The last in the neighborhood to find out the vices of children are the children's own parents.

Hez Heck says: "When it comes to responsibility, think how much depends upon suspender buttons."

Man Power and Gasoline Prices

SO LONG as the acute shortage of man-power in the United States continues, the demand for gasoline power will continue to increase.

Every increase in the demand for gasoline power will affect the price of gasoline, because, though petroleum production is continually increasing, it is not keeping pace with the demand for gasoline.

The latest figures available illustrating this point are for March, 1920.

Petroleum Production:	Petroleum Consumption:
Daily Average	Daily Average
1,177,129 bbls.	1,417,129 bbls.
Total for Month	Total for Month
36,491,000 bbls.	43,930,999 bbls.

If production continues for the rest of the year at the rate established in the first quarter, the total production of petroleum for 1920 will be in excess of 410,000,000 barrels.

If consumption continues for the rest of the year at the rate established in the first quarter, the total consumption of petroleum for the year 1920 will be in excess of 495,000,000 barrels.

Or, for the year 1920, consumption may be expected to exceed domestic production of petroleum by 85,000,000 barrels.

Because of its high-powered organization, trained through years of experience to the interpretation of conditions, the Standard Oil Company (Indiana) is anticipating increased need for gasoline and is bending every effort to supply the people of the Middle West with the gasoline they need.

It means much to the Middle West to be able to use freely that most important of all labor-saving devices—the automotive machine.

The Standard Oil Company (Indiana) believes that its greatest service lies in providing at all times, everywhere, and at the lowest possible prices, the gasoline needed to operate these engines of production.

Save Money—Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires of the 30 x 3-, 30 x 3 1/2- and 31 x 4- inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell or Dort, take advantage of the opportunity to enjoy true Goodyear mileage and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at our nearest Service Station.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread, \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread, \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30x3 1/2 size \$4.50 in waterproof bag.....

ANNUAL PLOWING MATCH

Oakland City Stages Novel Event
Event For All Kinds of Plowing

Oakland, City, Ind., July 28.—More than 5,000 people were to come here today to witness the annual plowing match of the Pocket Plowing Association.

Walking plows, riding plows, cultivators and tractors were in a 20 acre field, one half mile west of here.

Five premiums were offered in eight classes of entrants ranging from \$5 to \$20. Two silver loving cups were also offered for the tractor class.

Foley's Honey and Tar Compound

IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "snuffles," and that tight, wheezing breathing. It stops croup, too. It eases and checks whooping cough, measles cough and bronchial coughs.

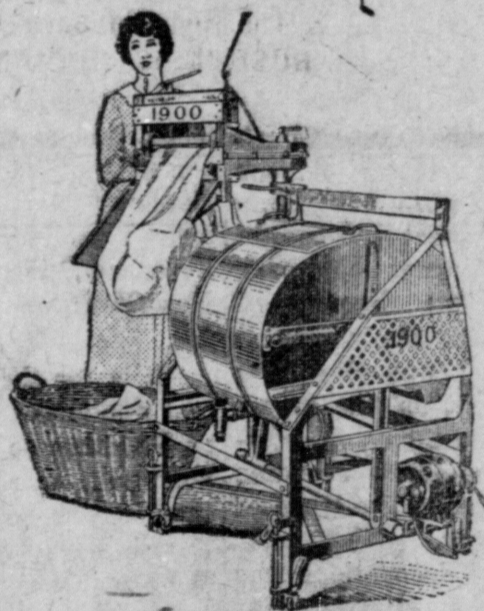

Every User a Friend

"My little girl had been having the croup every few nights, so I began giving her a few drops of Foley's Honey and Tar every two or three hours. That night she slept well, never coughing any, and next day her cold was gone."

—Mrs. R. M. Ranley, Stanford, Ky.

"My three children had a very severe attack of whooping cough. The first few doses of Foley's Honey and Tar gave them great relief, and it did them good."—Mrs. E. C. Heater, Grand Island, Neb.

F. B. JOHNSON

The "1900" Cataract is the very latest and most up-to-date Electric Washing machine. It has no cylinder to lift out or bother with. Made only of extra heavy copper, tin lined, which never rusts and is so easy to clean. Washes cleaner and in much less time than any other machine. More simple. More labor saving. A real washing machine. We use no galvanized iron in any of our machines. It is so arranged that you can wash and wring at the same time. No complicated starting. A child can understand it. It is the simplest but most effective washer on the market. Received the Gold Medal, which is the highest award, at the Panama-Pacific Exposition at San Francisco, 1915.

Mrs. E. L. Aikins delightfully entertained a number of her friends and neighbors this afternoon with an informal social party at her home in Raleigh, honoring her daughter, Mrs. Orville Estell of Oklahoma, who is visiting her mother for a few weeks.

* * *

All students and former students of the New Salem high school are cordially invited to attend the basket dinner to be given in Glen-Miller park, Richmond, Ind., Sunday under the auspices of the class of 1900-1901. The dinner will be served promptly a 12:30 o'clock.

* * *

Honoring the 86th birthday anniversary of Mrs. Martha J. Boys, who lives with Mr. and Mrs. Robert Brown in Milroy, about 35 guests were present at a dinner party yesterday and spent the afternoon with Mrs. Boys. Nieces and relatives were present from Rushville, Anderson and Greensburg. Mrs. S. A. Bartlett, who lives with Mr. and Mrs. E. B. Miller of this city, was the oldest guest present, being almost 90 years old. She is a sister of Mrs. Boys.

* * *

At eight o'clock this morning a pretty wedding was solemnized at the St. Mary's Catholic church when Miss Grace Couch, daughter of Mr. and Mrs. William Couch of North Sexton street, was united in marriage to William O'Brien, son of Mr. and Mrs. T. J. O'Brien of Connersville. To the strains of Mendelssohn's wedding march, the bridal party marched down the aisle to the altar led by Miss Ruth Canley, who acted as the little flower girl. She was dressed in a dainty white organdie dress and carried a basket of sweet peas. Next in the procession were the brides-maid, Miss Gertrude O'Brien, sister of the bride-groom, who was dressed in white organdie with a large picture hat to match, and the best man, John Brenham, of Connersville. Following were the bride and bridegroom. Miss Couch was gownned in a lovely white crepe de chine dress and wore a wedding veil draped in cap effect and caught with a wreath of orange blossoms. She carried a bridal bouquet of bride's roses. During the ceremony "I Love You Truly" was played by Mrs. Francis Knecht on the organ.

Following the ceremony, a prettily appointed three-course wedding breakfast was served at the home of the bride's parents. The color scheme used in the decorations was pink and white. Immediately after the breakfast Mr. and Mrs. O'Brien left on a wedding trip through the East.

Among the out-of-town guests present were Mr. and Mrs. Roscoe Best, Guy McMath and Mr. and Mrs. O'Brien, of Connersville; Mr. and Mrs. Phillip McCloy, of Cincinnati, Miss Mary Beason of Indianapolis and Mr. and Mrs. John Barrett, of Dayton, Ohio.

The bride is well known in this city, having attended the local high school. The bridegroom is employed by the Rex Manufacturing Company in Connersville.

TAKES VACATION IN DUBLIN

Will Prendergast Writes of Pleasant Visit in Ireland

Will Prendergast of Brooklyn, N. Y., former Rushville man, is spending his vacation in Dublin, Ireland, according to a letter received here, instead of coming back to his old home. He makes no mention in the letter of the civil strife which is taking place there between the Sinn Feiners and Unionists.

Mr. Prendergast says Dublin is a beautiful city where every resident seems to take pride in keeping his home pleasant to the eye, and declares that the streets are as slick as glass from constant cleaning. Mr. Prendergast writes that he is enjoying the present visit so much more than previous ones because it is a vacation. He expects to come to Rushville this fall.

TO TEACH FRENCH BOYS U.S. SCOUTING

Lorne Barclay Director of Boy Scouts of America to Establish School in Devastated France

MANY MEMBERS ARE ORPHANS

School to be Latest of the Many Activities of the American Committee Operations in France

The National Education Director of the Boy Scouts of America, Lorne W. Barclay, by invitation of the American Committee for Devastated France will establish and be director-general of a Camp School for the boys of the war-devastated regions.

The school will be in the form of a boys camp of large size located on the estate of the Marquis de l'Aigle on the Aisne River near Compeigne, on the edge of the greater battlefields, and will be the latest of the many activities of the American Committee, of which former United States Ambassador to France, Myron T. Herrick, is president, Miss Anne Morgan, vice-president and chairman of the executive committee and Mrs. A. M. Dike is the official director in charge of operations in France.

Many of the boys who will be in this great camp are orphans whom the war deprived of all relatives and there will be others who have not been in school and have been practically without care since the beginning of hostilities in 1914.

Mr. Barclay, who is one of the most widely experienced men in the Scout movement and is known in nearly every state in the Union as an energetic worker in the promotion of Scouting, has been given two months' leave of absence by the National Council of the Boy Scouts of America for this work as a further contribution by the Scouts of this country through the American Committee to the service being rendered unfortunates abroad especially those in the sorely stricken portions of France. "Hal" Fullerton, "Chief Grub Scout", whose great work during the war in increasing the food supply of farms and gardens will always be remembered, recently went to France under the auspices of the American Committee, where he has established a demonstration farm in the devastated district, with French Boy Scouts for his workmen, the object being to teach American scientific agriculture in an effort to speedily increase the food supply there.

"As a builder of physical efficiency, and morality as well, the superiority of the Boy Scouts of America program is generally recognized", said Mr. Barclay while busily engaged in preparing to sail from New York on the Mauretania July 1st.

"It is for the purpose of adapting and applying the American methods of Scouting so far as possible to conditions in the devastated regions that we are going. It will be a work for the boys by the boys themselves. We are just going to show them how to go about Scouting in the American style, especially in reference to outdoor activities, which have been developed here on a scale unknown in France or any other foreign country.

"Naturally the boys we are going to deal with over there, many of them very poor and without parents and having long been without adult leadership, will be the hardest kind of material to work on, but that will make it all the more interesting and worth while. We will divide the boys in the camp into troops and patrols following our American plan, under Scoutmasters and Patrol Leaders who are now French Boy Scouts, and teach them team play, sanitation, personal health, and all that makes for clean morals, and we will emphasize the many outdoor activities for which the Boy Scouts of America are noted, taking with us samples of all kinds of tents and paraphernalia for up-to date camping to serve as models to use in the Camp School there."

Frank C. Irwin who has been prominent in Scouting for many years, accompanies Mr. Barclay as one of his assistants. Mr. Irwin was formerly Secretary of the Boy Scouts of Sasatchewan, Canada, was a Boy Scout delegate from Canada to the coronation of King George and was the organizer and director for two years of the Boy Scouts of Mysore, India. Recently he has taken post-graduate work in Columbia University, and was Scoutmaster of a troop in Manhattan while studying there.

Another assistant with Mr. Barclay is Carlisle Bolton-Smith, a First

Class Boy Scout whose home is in Memphis, Tenn. He is an undergraduate student at Amherst. His specialty in the Camp School in France will be aquatics, including swimming, life-saving, and many forms of water sport new to that country. He will also be in charge of boxing, wrestling and similar lines of sport.

VISITS OLD FRIENDS

J. T. Wait, president and general manager of the J. T. Wait Realty company of Indianapolis, was in Rushville, today visiting old friends and looking after business matters. He formerly resided in Connersville but now lives in Irvington with his daughter and has offices at the Denison hotel.

TO PREACH AT GLENWOOD

The Rev. G. H. Dawton, pastor of the Christian church in Arlington, will preach to the Christian congregation in Glenwood tonight at eight o'clock. As the Christian membership there does not have a church, the meeting will be held in the school building of that place.

DROPS DEAD WHILE ENTERING STORE

Andrew J. Fisher, 76 Years Old, is Stricken With Heart Disease Tuesday at Blue Ridge

WIDOW AND TWO CHILDREN

Alfred J. Fisher, age seventy-six years, widely known resident of Blue Ridge, dropped dead with heart disease while entering the Marshall Brothers general store in Blue Ridge yesterday. He had gone to the store to do some trading and was carrying two chickens and a basket of eggs. Mr. Fisher had just stepped inside the door when he was stricken.

Mr. Fisher has been afflicted with heart trouble for two years, but relatives had no intimation yesterday that he was not feeling well. He was born and reared in the Blue Ridge neighborhood and lived here

all of his life. The deceased was a member of the Odd Fellows lodge at Blue Ridge for forty years.

Surviving him are the widow, Mrs. Matilda Fisher; son and daughter, Mrs. W. O. Scull of Indianapolis, and Louis Fisher of Greensburg; one brother, the Rev. Henry Fisher of Billings, Mo., and one sister, Mrs. Nancy Baker of Blue Ridge. There are also six grand children and six great-grandchildren.

MINISTREL REHEARSAL

Boys and girls having a part in the second act of the K. of P. minstrels are requested to be at the K. of P. hall Friday night at 7:30 o'clock.

BOY SCOUTS TO MEET

The Boy Scouts will meet in their new meeting place over the city market tonight at seven-thirty o'clock. All Scouts are urged to be present.

The Ear's Capacity.

The most practiced ear cannot distinguish in one second more than from nine to twelve successive sounds.

GWYNNEVILLE BOYS RUN OFF

Reach Richmond But Are Convinced About Returning Home

Charles Ray and Albert McConnell, two 15-year-old lads residing, with their parents on farms near Gwynneville, Shelby county, tiring of rural life and attracted by the white lights of the city arrived here Tuesday, footsore and fatigued, says a Richmond, Ind., dispatch today.

Sheriff Carr convinced the lads that residence on a farm these days is preferable to fighting the high cost of living in cities, and so they decided to return home. They had enough money to pay their fares.

Mark Twain's Dire Threats.

When Mark Twain wrote "Huckleberry Finn" he penned this introduction: "Persons attempting to find a motive in this narrative will be prosecuted; persons attempting to find a moral in it will be banished; persons attempting to find a plot in it will be shot."

Wanted—Salesmen and Agents

WANTED—Lady to act as agent and distributor for good Live Proposition. Excellent returns. Address Box 344, Connersville, Indiana. 11445

Help Wanted

WANTED—Young lady for bookkeeping, must be good in figures. Address Box 13 Rushville, Give References. 11343

WANTED—Girl for general housework. Rex Innis, R. R. 8, Rushville phone. 11246

HELP WANTED—No one can deny that many lines of business are suffering a slump. Among others consider the shoe, woolen, tire and automobile lines, as well as railroads who have either shut down or have laid off thousands of workers. The circulation has affected the essential as well as the non-essential lines. We would ask the girls and women of Rushville if they do not consider it a good idea to learn a trade that will help the "men-folk" when the movement reaches this city. This is bound to occur in time, if only through a revision of wages. To those who are far-sighted, we offer a limited number of positions. Earn while you learn and be ready to assist the family pocketbook if needed. We want energetic and ambitious workers. This is no "Get rich quick" scheme but an offer from a concern which has no dull seasons and offers steady work at high wages when you qualify. Apply in person: Rushville Glove Company. 31 Mon. Wed. Sat.

YACHTING CUP WILL STAY ON THIS SIDE

Defender Resolute Wins Final and Deciding Race From Shamrock Tuesday Afternoon

FINISHES WITH BIG LEAD

Sandy Hook, N. J., July 28.—Defender Resolute gave the British challenger Shamrock IV the worst drubbing of the 1920 regatta in the final race of the series Tuesday afternoon, winning boat for boat by 13 minutes and 45 seconds—and the America's famous yachting cup remains American property.

Overcoming a forty-second lead and the advantage of a windward berth which Shamrock IV had taken at the start, the fleet defender held a lead of 4 minutes and 3 seconds at the half-way stake of the thirty-mile course, and crossed the finish line 13 minutes and 5 seconds ahead. Including her handicap of 6 minutes and 40 seconds, which she did not need, Resolute won by 19 minutes and 45 seconds.

In capturing the series and retaining possession of the America's trophy, Resolute came from behind after Shamrock had taken two races and won out by registering three straight and impressive victories. Shamrock IV won the initial race when the defender was forced out by an accident to her rigging and captured the second in a fickle wind that left Resolute becalmed most of the way. Resolute won the third by her time allowance of 7 minutes and 1 second, running a dead heat with the challenger. Her other two victories were won boat for boat.

NOTICE OF PETITION TO REPAIR DRAIN

State of Indiana, Rush County, ss: In the Commissioners Court, August Term, 1920.

In the Matter of the Petition of George B. Moore, Jr., to repair drain.

To: Albert L. Morris, Dorothy Overstreet, Margaret Wynond, William Davis, Nellie Butler, Mary A. Laughlin, Whitelaw Spurrison, Hannah Mauzy, Orietta Wilson, Cora Alice Williams, Albert Charles Runkstein, Mary Ellen Rank, John A. Demmer, Mary Demmer, Alfred Donegan, Ross Neary, Clara Neary, Isaline Russell, Sarah E. Price, Alice Winslip, Fannie Stonecipher, Chase S. Pearsey, Elizabeth Pearsey, Anna B. Smith, Mary M. Higgins, Elias Black, Nora Black, Claude Hilligoss, Emma Lamb, Della Ridout, Louis W. Smith, Mary A. Smith, Adah L. Walton, Luther Wyrick, Sarah F. Williams.

You are hereby notified that I have filed in the office of the Auditor of Rush County, Indiana, a petition asking for the repair of a certain drain known as the John J. Fouts et al. Ditch, heretofore established in the Commissioners Court of Rush County, Indiana, by increasing the width and depth of the same. That the said drain is an open public ditch and the following is the route of said drain:

Commencing on lands of Guy, Ned, John and Roy Abernethy on the east line of the northeast quarter (1/4) of Section thirty-one (31), Township fourteen (14) north, Range ten (10) east, said point being at the mouth of several file ditches; thence in a southwesterly direction throughout the southeast quarter (1/4) of said Section thirty-one (31); and through the lands of said Abernethy brothers to where the said drain crosses Eleventh street of Rushville, Indiana; thence in a southwesterly direction across what is known as the City Park of Rushville, Indiana, across Ninth street, Sexton street, Arthur street, and Seventh street, to where the same crosses under the I. & C. traction line; thence in a southwesterly direction to where the same crosses under the L. & W. R. and Big Four Railways; thence in a southwesterly direction following the course of said branch as it now is to where the same would cross the road running north and south on the east side of the Anna Denning land and which is the west line of the corporation of Rushville, Indiana; thence in a northwesterly direction parallel with the C. & I. & W. R. R. to where the same crosses with what is known as the Abram Hackleman ditch; thence south under the C. & I. & W. R. R. to where the same crosses what is known as the Old Brookville Road; thence in a southerly direction following the branch as now located to where the same crosses what is known as the Shelbyville turnpike; thence across said turnpike and in a southwesterly direction to where the same passes under the B. & C. & St. L. Ry.; thence in a southwesterly direction to the line dividing the lands of George B. Moore and Margaret Wynond; thence south on said line to the south line of the southwest quarter (1/4) of Section 31 of Township thirteen (13), Range ten (10); thence in a southeasterly direction through the lands of Birney Anderson to where the same empties into what is known as Big Flat Rock Creek.

You are hereby notified that said petition will be docketed for hearing in said Commissioners Court of Rush County, Indiana, on the 14th day of August, 1920.

Dated this 20th day of July, 1920.
GEORGE B. MOORE, JR.
July 21-28-Aug 4

NOTICE OF ADMINISTRATION

Notice is hereby given that the undersigned has been appointed by the Clerk of the Rush Circuit Court of Rush County, State of Indiana, executor of the estate of Sarah T. Marshall, late of said county, deceased.

Said estate is supposed to be solvent.

SHELLY D. DAVISON.
July 27, 1920.
Attest: Loren Martin, Clerk of Rush Circuit Court.
Douglas Morris, Attorney.
July 28-Aug 4-11

NOTICE TO NON-RESIDENT

The State of Indiana, Rush County, Vacation Term, 1920.

Mildred Preston vs. John Preston.
Complaint No. 2121.

Now comes the plaintiff, by John A. Tittsworth, her attorney, and files her complaint herein, complaint for divorce, together with an affidavit that the defendant, John Preston, is not a resident of the State of Indiana.

Notice is therefore hereby given said defendant, that unless he be and appear on the first day of the next term of the Rush Circuit Court to be held on the first Monday of September A. D. 1920, at the Court House in Rushville, in said county and State, and answer or demur to said complaint, the same will be heard and determined in his absence.

In Witness whereof, I hereto set my hand and affix the seal of said Court at Rushville, this 27th day of July, A. D. 1920.

LOREN MARTIN, Clerk.
July 28-Aug 11-18

IT'S MY DUTY TO TELL FACTS" SAYS L. & N. MAN

John M. Williams Feels Others Should Know How Tanlac Has Overcome His Fifteen Years of Suffering.

"While I have taken only four bottles of Tanlac I have actually gained seventeen pounds in weight and feel better than I have in fifteen years," said John M. Williams, 204 Broadway street, Evansville, Ind., who works at the L. & N. Railroad shops.

"For at least fifteen years I had suffered from stomach trouble and rheumatism. Nothing I ate agreed with me. After every meal I would bloat up with gas until I could hardly breathe, and have such intense pains in the pit of my stomach they nearly drew me double. There was always a bad taste in my mouth, my kidneys worried me a great deal and I was never free from pain across the small of my back. I had rheumatism just about all over my body, and could never get easy, either day or night. Why, the muscles in my legs hurt like they were tied in knots, and my knee joints would swell and get so stiff I could hardly walk or get up and down. In fact,

I was in a mighty bad fix, and although I tried many different medicines nothing seemed to do me a particle of good.

"But I am one of those fellows who do not believe in giving up, so I kept hunting for something that might help me, and as I had heard so much about how Tanlac was benefiting others, decided I would try it. Well, sir, I had taken only a few doses before I knew I had at last found the very thing I needed, and in a short while was feeling like my old self. I can now eat anything I want and enjoy it, for I know I will not suffer a particle afterward. My kidneys never bother me any more, and the pains have entirely gone out of my back. I never feel the slightest sign of rheumatism, and in fact, I am a well man. I certainly feel thankful for what Tanlac has done for me, and am not only glad to recommend it, but believe it is a duty I owe to my fellowmen to tell them about this grand medicine."

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dal-las Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, and in Carthage by Otto C. McCarty.—(Adv.)

THE NEW OVERLAND

On Triplex Springs nimbly glided over the nation's roughest roads has written a wonderful story of Stamina. The story began with the unprecedented pre-production test covering 250,000 miles of the wild country of the great Southwest. In its first eight months of service among 75,000 owners climax upon climax has been piled up in records of extraordinary performance.

The remarkable performance of the Overland is due largely to its jar-absorbing Triplex Springs, which prevent the usual pounding of rough roads from causing discomfort to passengers. They also reduce the stress and strain on motor and chassis, preserving the car for longer wear and reducing upkeep. The chassis itself of finest alloy steel adds to the stamina of the car as a whole.

The success of the Overland Triplex Springs has changed the attitude of thousands toward the light type of motor car. You cannot truly appreciate the comfort, economy and stamina of the new Overland until you have actually ridden in this car.

No Regrets From Taking Drecto

Declares the Great Root and Herb Medicine Went Straight to the Spot.

Relieved Headaches, Constipation Gas in the Stomach Indigestion and Filled Him With Vigor and Vitality.

"I will never regret taking Drecto for it went straight to the spot which is something no other medicine ever did for me", declared Mr. Andrew Frederick, a well known and highly esteemed employer of Bede's Wood Work Factory, Marion, Ind.

"I have suffered years from indigestion, dull aching headaches, gas in the stomach and was daily constipated unless I would take some kind of medicine all along. I have finished my second bottle of Drecto and I feel like I never saw a sick day in my life. I eat big meals and never have the gas any more, sleep all night long, bowels are free and regular. I feel full of vim and vitality and go about my work like it was play."

Now is the time to take a good reliable tonic to build up the system and get yourself in first rate trim for the hot weather Drecto is a powerful tonic, yet gentle in its action. Good for young or old alike.

All druggists now sell Drecto and it is being especially introduced in Rushville by F. B. Johnson and Co.

EPUBLICANS TO FORM A FIRST VOTERS CLUB

Work Will be Started August 1 By Republican State Committee, Aided by County Chairmen

MONTICELLO MAN IN CHARGE

Indianapolis, Ind., July 28.—Organization of the "first voters" in Indiana will be taken up the first of August by the Republican State Committee, co-operating with the county chairmen, it was announced today by Fred E. Schortemeier, secretary of the committee.

Schulver C. Mowrer, of Monticello, a law student at Indiana university, has been placed in charge of this work. Mr. Mowrer was in the army during the war and was one of the fifty soldier speakers selected from the American Expeditionary forces to return to the United States and speak in behalf of the Third and Fourth Liberty Loans.

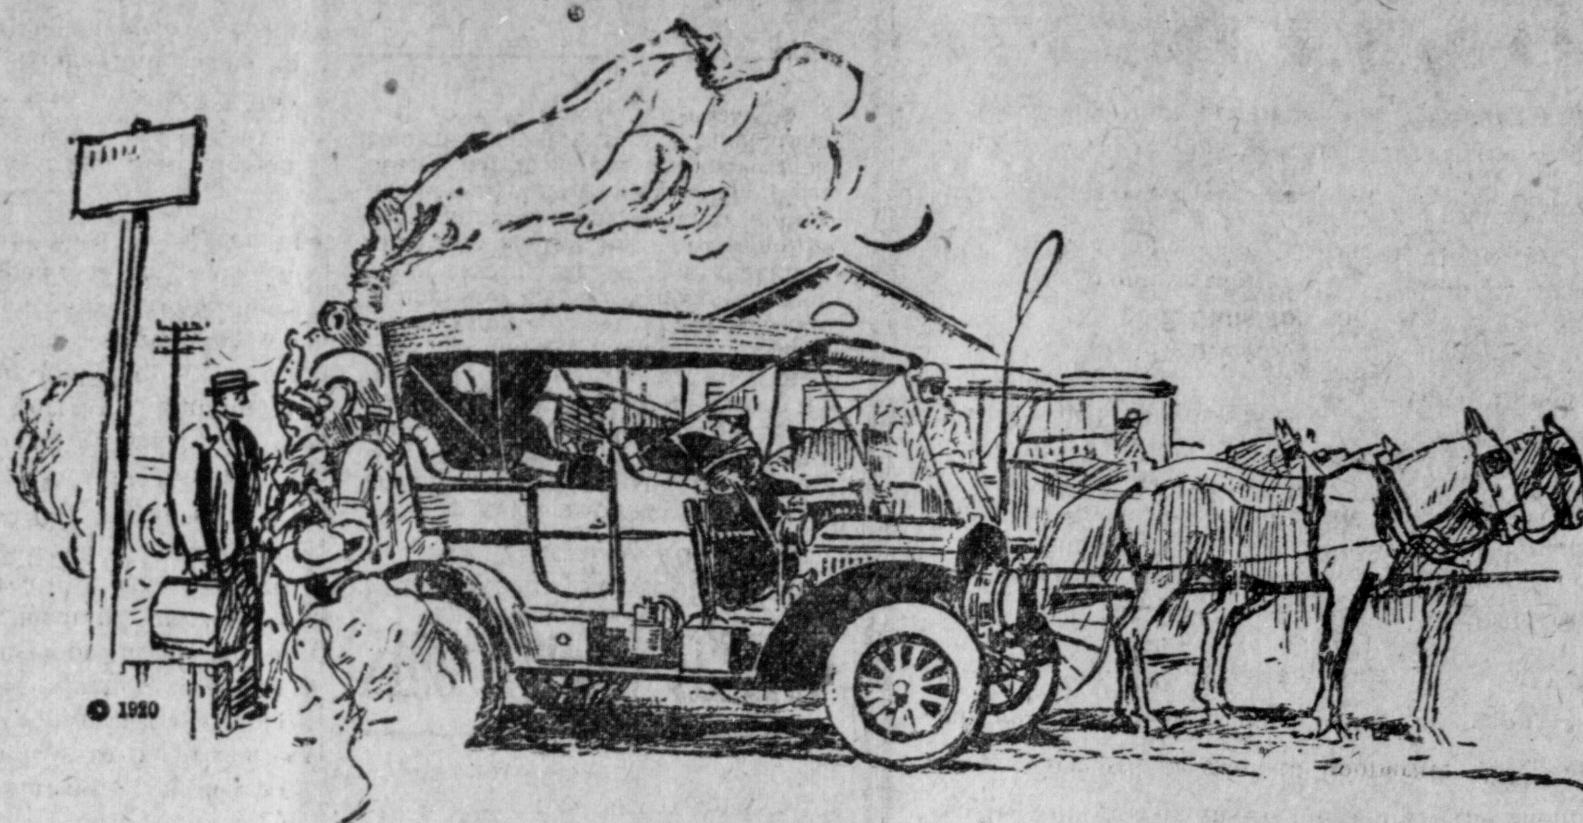

The purpose of the "first voters" clubs will be to bring the young men who are just entering politics together in order that they may hear the issues intelligently discussed and adequately acquaint the members with the platform and the principles of the Republican party. Speakers will be provided at all meetings.

The clubs will also give the young men of the state an opportunity to express their ideas and will give the element the young men represent a hand in party affairs, Mr. Schortemeier pointed out.

PAPER MILL EMPLOYEE HURT

James Perkins of Carthage Recovering From Injuries

James Perkins, an employe at the Carthage paper mill, is recovering from an injury which he sustained Saturday when his left ankle was crushed while moving a four ton piece of machinery between two buildings, a crow bar giving way, dropping the machinery on his foot. One other man was also injured, but not seriously. Mr. Perkins and his wife came to Carthage last week from St. Louis, Mo., and today he was reported to be recovering nicely from the injury. It is considered fortunate that the crow bar held the machinery up off the remainder of his leg, as it would probably have crushed his entire leg off, as the machinery was very heavy. Ten workmen were engaged in moving it, and were pushing it with rollers and crow bars.

When the train came in back in 1910

TEN years ago you might have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

Anybody who tells you that owners of moderate-price cars are not interested in the quality of their tires has never met very many of them.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned—the U. S. Tire.

Every U. S. Tire is just like every other in quality—the best its builders know how to build.

Whatever the size of your car, the service you get out of U. S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U. S. tires are made.

We feel the same way about it. That's why we represent U. S. Tires in this community.

Amusements

Alice Brady at Princess Today

"The Fear Market," a Realart Production which is to be presented at the Princess today is a photoplay attraction which critics who have followed the development of the silver sheet as a medium for the presentation of really big dramatic ideas have declared ranks among the foremost of film dramas.

Alice Brady, the film fans' favorite in the part of Sylvia Stone is called upon to portray the gamut of human emotions and does so with a tensility that is most convincing and a subtlety which causes the calloused critics to speak of her work as ranking with the best ever seen on the screen.

In no sense is "The Fear Market" a pretentious production. It is a tale of pathos and love which tugs at the heart strings and keeps the spectator entranced from start to finish.

The story is by Princess Troubetzkoy, and when "The Fear Market" made its appearance in print

created a sensation wherever English is read. It was apparent that the author's story on an expose which filled the front pages of the press the world over.

Miss Brady is supported by a cast of screen and stage actors well known to theatre-goers for their histrionic ability.

STOP-ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying Zemo. Furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

INVESTIGATION OF STRIKE UNDER WAY

Federal Authorities Start Inquiry
Into Unauthorized Walkout of
Miners in Three States.

OPERATORS ARE IN SESSION

Indiana Miners Will be Asked to Re-
turn to Work Tomorrow Pending
Adjustment of Dispute.

(By United Press.)

Federal investigation of the unauthorized strikes of coal miners in Illinois, Indiana and Kansas was under way today as mine union officials and operators began maneuvering for peaceful settlement independent of government action.

Thomas T. Brewster, chairman of the operator's committee of Central competitive field, in response to the telegram from John L. Lewis, international miners' president, today called a conference of operators in Indiana, Ohio, Western Pennsylvania and Illinois to determine whether to accept the plan for a joint conference with the miners.

Operators in the four states went into separate conferences early today. They were to telegraph their decisions to Brewster at St. Louis who said he would accept the majority decision.

Union officials were in executive session in Indianapolis drafting the proposal for presentation to the operators.

Closing of industrial plants in the middle west began today, according to reports. Steel mills in Gary, Indiana, and the Calumet district began laying off workers and curtailing operations because of coal scarcity.

Chicago officials seconded the rationing of water supplies. Many concerns were burning oil.

Terre Haute, Ind., July 28.—Coal miners on unauthorized strike in Indiana fields will be requested to return to work tomorrow, pending an effort to adjust wage demands of day workers, it was decided at a meeting of union officials here today.

Ten delegates representing the day men of all mine locals in the district of Indiana, meeting with District President Ed Stewart and Secretary William Mitch here today, decided to recommend this action to their constituents this afternoon.

Two weeks will be granted the officials in which to reach an agreement with the operators, it was decided, and if the wage awards at that time are not satisfactory, the men will again be at liberty to leave their work.

The delegates will submit this plan to the miners' union and a mass meeting at four o'clock this afternoon for popular approval. If the men reject it they will very likely remain on strike. Reports to the district union headquarters here today indicated that about 75 out of 80 miners in Indiana were idle, because of strike of day laborers in demand for equalization of wage rates. They have been out on strike through dissatisfaction with the awards of national coal commission which they say made their wage lower corresponding with those of other miners.

Although a few more mines in the central Indiana coal field closed today, the situation remained about the same as yesterday. No disorder has been reported and in most regions the miners insist that they are not on strike. They say they have "quit." Both the Mine Workers' officials and the operators are reluctant about giving out figures and estimates on the number of men idle run from 7,000 to 22,000.

Officials of the United Mine Workers of America say that the miners will head any suggestion from John L. Lewis, president of the national union, William Mitch, secretary, and George W. Mitchell, general manager of District 11, T. M. A. said today that Mr. Lewis is doing everything in his power to help the day men and still consider the matter. He is always trying to do the best thing for the men and the operators.

Although the situation in the district is serious, both operators and miners are trying to reach an agreement. Continued on Page Three

BOOY IDENTIFIED TODAY

One Found in Trunk is That of Mrs. Katherine Leroy

(By United Press.)

New York, July 28.—The body of a woman found in a trunk here, was positively identified by Mrs. Leo Trumbull of Detroit today as Mrs. Katherine Leroy of that city.

"That's her. That's her," Mrs. Trumbull screamed hysterically when the body was uncovered. She grew faint and was quickly led from the room. Her husband, a patrolman of Detroit, also identified the body as that of Mrs. Leroy. The identification was made in the presence of Robert Speed, assistant prosecutor of Detroit, and several detectives from that city. The Trumbulls were expected to leave for Detroit today.

MURDER SUSPECTS NOW SAFE IN MEXICO

E. E. Venderne, Alias Eugene Leroy, Alias Wood, Believed to Have Crossed the Border.

(By United Press.)

Detroit, Mich., July 28.—E. E. Venderne, alias Eugene Leroy, alias Wood, sought in connection with the New York-Detroit murder mystery, is now in Saltillo, Mexico, according to word received here today by Chief of Detectives Fox from San Antonio police.

According to the message received by Fox, an old man named Venderne thought to be the father of E. E. Leroy has been located in that city. The story told by the man regarding the movement of his son who is said to answer closely to the description of Leroy, fits in perfectly with the movements of Leroy so far as they have been traced during the past few months, the message said.

The man said that his son passed through San Antonio several days ago on his way to Saltillo and probably will arrive there by this time, according to the message.

REDUCTION IN SUGAR PRICE NOT FELT HERE

Fair Price Commissioner Announces Drop of 12 Cents, But It is Selling Here at 28 Cents

(By United Press.)

A reduction of 12 cents a pound in the price of sugar, effective today, which was announced in morning newspapers by Stanley Wyckoff, fair price commissioner for Indiana, has not been felt here although sugar is selling two cents less on the pound than it did a few days ago. The general price until recently was 30 cents, but the highest price asked by Rushville merchants today was 28 cents.

Mr. Wyckoff says the reduction makes the price of retail sugar in Indiana about 25 cents. Local dealers, when asked about this statement today, said that Indianapolis retailers might be able to sell sugar for 25 cents, but that when freight and drayage from Indianapolis is tacked on, they have to charge more.

One grocer agreed with Mr. Wyckoff that there is more sugar available now than at any time since last May, and another said that a wholesaler told him yesterday sugar was very scarce and would be harder to get for the next few weeks on account of the demand during the canning season. Some local dealers are anticipating a break in the sugar market in September, when they expect the price to decline.

RIVERSIDE FEELS QUAKE

Riverside, Calif., July 28.—A minor earthquake was felt here today by earth-shakes, rattling of dishes and glass. The tremors lasted five seconds. No damage was done, according to the police reports.

ASSESSMENTS ARE PROSPECTS GOOD SENT TO AUDITOR FOR CORN YIELD

Valuation Placed on Railroads and Interurban Company by State Tax Commissioners

THE TOTAL IS \$3,346,705

Combined Assessments of Four Railroads Amount to \$2,912,900 And I. & C. \$433,805.

The assessments of the transportation companies operating in Rush county, which were fixed by the state board of tax commissioners, have been received at the county auditor's office and will be apportioned among the townships and other taxing units according to the mileage of such companies and the location of the improvements.

The total taxable value of the transportation companies' holdings in Rush county amount to \$3,346,705, which includes the property of the four railroads and the Indianapolis & Cincinnati Traction company. The assessments are approximately the same as last year.

There is a total of 77.17 miles of main line railroad track in the county, which is assessed at \$2,912,900. There are 10.54 miles of siding, which is valued at \$67,170. The railroad rolling stock is assessed at \$415,390 and improvements at \$14,000. This is an exclusive of the I. & C. valuations as they are assessed separately.

The railroad assessments amount to \$2,912,900 and the interurban line at \$433,805. The C. I. & W. railroad pays taxes on a larger valuation because all of its property is assessed together, amounting to \$667,790. The Columbus division of the Pennsylvania has the highest assessed valuation on main line track, it amounting to \$150,000 a mile.

The assessments are as follows: Chicago, Indianapolis & Western, Indianapolis division—mileage, 18.41; \$40,000 per mile; total, \$736,400; side track, 2.7 miles at \$6,000 per mile, \$16,200; rolling stock, \$110,480; improvements, of right of way, \$4,730; total, \$867,790; Cleveland, Cincinnati, Chicago & St. Louis (Michigan division)—mileage in county, 14.3; assessed at \$30,000 a mile; total \$429,000; 3.21 miles of side track at \$7,000 a mile, \$22,470; rolling stock, \$85,900; improvements, of right of way \$2,000; rolling stock on Ft. W. C. & L. (L. E. & W.) \$750; total \$440,020.

Ft. W. C. & L. (Rushville branch) 12.87 miles of main track at \$15,000 a mile, \$193,050; 1.92 miles of side track at \$5,000 a mile, \$9,600; rolling stock, \$51,480; improvements, \$1,970; total, \$256,100.

P. C. C. & St. L. (Pennsylvania, Columbus division 43 miles at \$150,000 a mile, \$6,450; 94 miles of side track at \$15,000, \$1,410; rolling stock \$8,600; total \$73,700.

P. C. C. & St. L. (Cambridge City branch of Pennsylvania) 20.51 miles of main line at \$28,000 a mile, \$574,280; 1.08 side track at \$7,000 a mile, \$7,560; rolling stock, \$205,100; improvements, \$2,150; total \$799,090.

Vernon, Greensburg & Rushville. (Big Four south) 10.64 miles of main line at \$30,000 a mile, \$319,200; 3.30 miles of side track at \$6,000 a mile, \$19,800; rolling stock, \$53,200; improvements, \$3,150; total \$395,350.

Indianapolis & Cincinnati Traction Co.—18.73 miles of main line at \$15,000 a mile, \$280,950; 1.82 miles of second main at \$10,000 a mile, \$18,200; 1.26 miles of side track at \$5,000 a mile, \$6,300; rolling stock, \$28,095; improvements, \$10,020; total \$433,805.

MANY FIREMEN OVERCOME

Chicago, July 28.—Twenty firemen were overcome today while fighting a fire that practically destroyed the beef house of Armour & Co., a five-story structure, covering a block at the stock yards. The flames measured a million dollars worth of beef.

DESERTION CHARGE FILED

Warrant Issued For Arrest of William Franklin in Illinois

A warrant for the arrest of William Franklin, alias W. W. Jackson, was issued today in Square Street court, on two charges, one for wife desertion and the other for child desertion. Special Constable John Wolter, accompanied by C. W. Duncan, attorney, left this morning for Illinois, where it was learned that Franklin was working.

It was expected that he would be brought here late tonight and given a hearing immediately. The charges were filed by his wife, who was formerly Marie Manliet of Noble township. Franklin worked in this city and went under an assumed name of W. W. Jackson.

DIES 10 DAYS AFTER DEMISE OF HIS WIFE

A. M. Fry, Washington Township Farmers, Expires This Morning of Acute Nephritis

FUNERAL AT 2 P. M. FRIDAY

A. M. Fry, a prominent farmer of Washington township, living northeast of this city, expired this morning at 4:35 o'clock, after an illness of two months, death being caused from acute nephritis. The deceased was 67 years old at the time of his death.

Mr. Fry died exactly ten days following the death of his wife, who expired a week ago Monday, at the same hour of the early morning. He had been in failing health for some time, and little hopes for his recovery were held out, following his wife's death.

The deceased is survived by one brother, Benton, of Eaton, O., and one sister, Mrs. Hahn, and an adopted son, Alfred, who lives near Sexton. The funeral services will be held Friday afternoon at two o'clock at the Raleigh church and burial will be made in the cemetery nearby.

FIREMEN'S BILL NOT TO APPLY IN RUSHVILLE

Measure Changed so as to Effect Only Indiana Cities of 15,000 or More Population

GOODRICH OBJECTED TO IT

The bill in the legislature, compelling all cities in Indiana with a regularly organized paid fire department to adopt the two-platoon system, which was passed by both houses and awaited the signature of the governor, has been withdrawn on account of objections of Governor Goodrich, and a new one providing the measure shall apply only to cities of 15,000 population or more, has been introduced in the senate and passed by that body.

It is understood that Governor Goodrich objected to the bill on the grounds that a number of Indiana cities, under 15,000 population did not wish to adopt the two-platoon system. Had the bill been signed by the governor as it was originally, the number of firemen in Rushville would have been doubled and they would have been on duty in shifts of twelve hours each. Under the present arrangement they are on duty twenty-four hours a day with one day a week off. According to the provisions of the measure, the firemen would have been subject to call at any time in case of an emergency, even though it were not their shift on duty.

OFFICER TO GUARD BANKS

Anderson, Ind., July 28.—In view of the fact that numerous bank robberies have occurred over the country the police board here named a special officer whose duty shall be to guard the district in which banks are located.

DAYIS DEVOTED TO CONFERENCES

House and Senate of Special Session Mark Time While Conference Seek Agreement

TAX BILLS STILL IN THE WAY

Some Legislators See Possible Adjournment by Tomorrow Night—House Passes a Bill

(By United Press.)

Indianapolis, Ind., July 28.—In order to give the conference committee an opportunity to function, the senate of the special legislature adjourned shortly after meeting in the morning session today.

The house passed Senator Heston's bill authorizing the establishment of a two platoon fire system in towns of over 15,000 population and this measure is ready for the governor. The vote was 73 to 1. Governor Goodrich vetoed a previous bill of this kind because it applied to all cities regardless of population.

It was a question of marking time in both bodies while the committee from both the house and senate met in joint session and threshed out senate amendments to important house bills.

Immediately after the committee adjourned until this afternoon, the conferees went into session. Their doors were still locked and there were conflicting reports as to whether an agreement was in sight.

As the committee met behind closed doors, some legislators say possible adjournment by tomorrow night.

The two important bills on which the conferees must agree before adjournment is possible are the taxing measures, one of which restores absolute control over tax levies and bond issues to local taxing units and the other overruling the order of the supreme court's decision holding illegal the tax board's horizontal increase in property valuations.

Troublesome points of difference among members of both houses about methods to be included in the bill to adjust conditions caused by nullification of horizontal tax assessment increases, and the bill to restore to counties control of tax levies and bond issues, were still evident when the houses took up their sessions today, but leaders felt that these differences could soon be removed in such a manner that acceptable tax legislation could be had.

The fact that a joint conference committee on a world war memorial bill practically has agreed on a plan for the state to fix a levy, Continued on Page Three

EFFECTS OF STRIKE NOT FELT HERE YET

Movement of Coal Slow For Weeks and Factories Have Been on Hand-to-Mouth Policy

SEE SERIOUS PLIGHT LATER

Although many industries in Indiana, Illinois and Ohio are closing down because of the shortage of coal, due to the unauthorized strike of miners, local industries are not finding the shortage any more serious than it has been for several weeks.

On several occasions recently local factories and the Indianapolis & Cincinnati traction line power house have averted closing by borrowing coal from some other concern in Rushville. Last week the city water, light and power plant loaned the I. & C. power house a car of coal and prevented a temporary shutdown.

The managers of local industries are expecting to feel the effects of the closing of mines in this district later when the coal begins to run down. As conditions have been so serious, factories have been unable to lay up a supply, excepting hand-to-mouth policy.

TO ABANDON CAMP TAYLOR

Washington, July 28.—Abandonment of Camp, Zachary Taylor, Louisville, Ky., was announced today by the war department, with the notice that the first division, now stationed there is to be transferred to Camp Dix, New Jersey.

IRREGULARITIES ARE REVEALED BY INQUIRY

Accountants to be Employed to Straighten Out Tangle at Defunct Milton Bank

BANK BOOKS ARE MISPLACED

Richmond, Ind., July 28.—James Doddridge, stockholder of the Doddridge-Grave Decorating Company of Milton, said today accountants are to be put on the books of the company to ascertain its financial condition. Officers of the company, he said, decided "on this action when they learned that the company's bank books, supposed to be at the Farmers Banking Company, could not be found there." The bank was placed in the hands of a receiver a few days after Oscar Kirin, the cashier, ended his life by shooting himself.

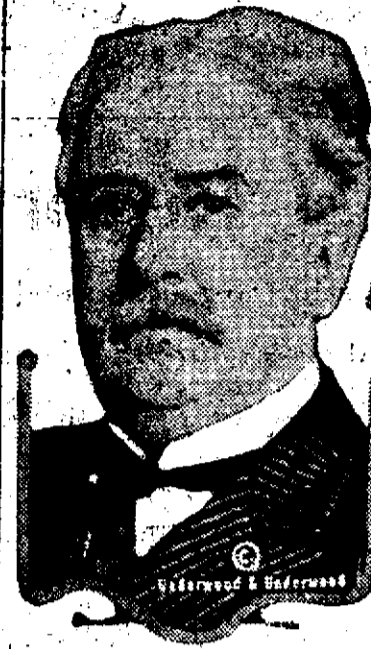

Claude Kitterman of Cambridge City, receiver of the bank, said today that he had not completed his investigation. Cashier Kirin was secretary-treasurer of the decorating company. Scafe Reid, a tenant farmer residing near Milton, said his bank book had not been out of the bank for eight years. A few days ago he was astonished when he received notice that he had overdrawn his account \$9,000. D. O. Clevenger, probably one of the largest land owners in Washington township, said he was informed that the defunct bank held one of his notes. He said that to the best of his knowledge he had not executed the instrument.

MUST PAY FOR DEFICITS

Government Will be Called on to Give Railroads \$49,000.

(By United Press.) Washington, July 28.—The government under its agreement with the railroads soon will be called on to pay them at least \$490,000 to meet the deficits incurred during March, April, May, June, July and August, Director Tammelle, of the bureau of railway economics estimated today. Tammelle characterized this estimate as very conservative.

W. H. FINLAY

New and exclusive photograph of W. H. Finlay, who has been elected president of the Chicago & Northwestern railway.

DAY IS DEVOTED TO CONFERENCES

Continued from Page One which will raise about \$2,160,000 for the memorial, with St. Clair park and the grounds of the Indiana institution for the Blind in Indianapolis as a site; and provision for co-operation by Indianapolis and Marion county in acquiring as a part of the memorial grounds the two blocks between the institution for the blind and University park, makes a considerable advance toward the session's close. The administration bill for regulating the prices and distribution of coal in Indiana, which was the subject of conference debate, has now been passed by both houses.

Conferees on the tax questions began deliberations in the morning, and there were prospects that the members of the committee which is considering the amended Johnson house "home rule" bill and the Tuttle house horizontal tax rate legislation bill, which was amended in the senate by substituting what is known as the Kaper bill, would freely exchange views for the purpose of arriving at a mutual solution. Some talk is heard of combining the vital elements of the two bills and reporting out one bill, which is designed to take care of the whole situation.

INVESTIGATION OF STRIKE UNDER WAY

Continued from Page One miners were inclined to believe that the situation will be relieved in a short time and they are not expecting a prolonged tie up of the mine industry.

Phil H. Penna, secretary of the Indiana Bituminous Coal Operators' Association, is in Pittsburgh, presumably to attend a conference of operators.

As the office of the Coal Operators' Association today it was announced that from sixty to seventy-five mines are closed, and that about 10,000 of 30,000 miners in District II are idle as a result of the strike. Attention was called to the fact that many of the mines idle yesterday were shut down because cars could not be obtained and for reasons other than the strike. They said that the regions affected by the strike are those of Jasonville, Bicknell, Clinton and Terre Haute.

SCOUTS NOW IN 52 COUNTRIES.

Few people realize the magnitude of the boy scouts as a world movement for boyhood betterment. There are boy scouts now in 52 nations. When you stop to consider that there are at present approximately 500,000 scout leaders in the United States alone and that a million and a half boys in this country have had the benefit of scout training during the ten years since the movement started, you can see that if scouting is conducted on anywhere near so great a scale in other countries the figures are staggering. The fundamentals of scouting are the same everywhere, so, though each country is organized independently, the boy scouts is really one great big world movement, perhaps numerically the largest ever known.

EDWARD J. GILSON IS DEAD

Succumbs to Cancer After Three Years' Illness

Edward J. Gilson for over three years a sufferer with cancer, expired last night at ten-thirty o'clock at his home, 120 East Fifth street, at the age of 42. The deceased is survived by a wife and the following children, Elmore, Bernard, Lillian and Emsley. The funeral services will be conducted at his late residence Thursday afternoon at two o'clock, and burial will be made in East Hill cemetery.

The deceased was engaged in training race horses, prior to his becoming critically ill with cancer, but for the last two years he has been compelled to remain at home.

The kitchen committee of the Little Flatrock Christian church will give an ice cream festival at the auditorium in the school building at New Salem Friday, August 6.

LICENSED TO WED

A marriage license was issued yesterday afternoon to William O'Brien of Connersville and Grace Couch, daughter of Mr. and Mrs. William Couch of this city.

Duty to Posterity. I would submit to a severe discipline and to go without many things cheerfully, for the good and happiness of the human race in the future. Each one of us should do something, however small, toward that great end.—Richard Jefferies.

BIG PUBLIC SALE

I, the undersigned, having decided to retire from business will sell at auction absolutely all my property, both real estate and personal on

WEDNESDAY, AUGUST 18, 1920
SALE TO START AT 9:30 A. M. SHARP.

335 - Acre Farm At Auction - 335
Two Miles East of Rushville.

This farm, we think to be one of as good as you will have an opportunity to buy, as it is good rich, sugar tree land and has been seeded to clover regularly and I expect has had more hogs fed on it than any same amount of acres in Rush county.

Buildings are in good shape—Two houses, two barns and other buildings, extra good and complete, tool sheds, cribs, hog houses. Fencing in good average shape. Ditching extra good. Out of the 335 acres, 300 of same is good plow land, balance good pasture land with never failing running spring water.

As this is probably one of the largest tracts of land ever sold at auction throughout this section, we will offer it in lots of from one-fourth up to the entire body, giving everyone a chance at this great opportunity.

All Personal Property to be Sold on Same Day and on Premises.

There will be a big lunch served at noon and we insist that you come out and spend the day with us and witness one of the biggest sales ever held in Southern Indiana.

TERMS MADE KNOWN IN A FEW DAYS

 "The Home of Savings"
 RUSHVILLE, INDIANA

Exide Battery performance at the Indianapolis Motor Sweepstakes on Memorial Day will be recorded as "a perfect score." Seven of the ten cars finishing the race, including the winner, used Exide Batteries for ignition.

Exide Service will supply you with a powerful, durable and dependable battery for your car—an Exide. It will also give your present battery unprejudiced, expert attention, and make it last as long as possible, until you are ready to replace it with an Exide—the long-life battery.

Vocational Aid For Children

Many colleges now have vocational guidance directors whose work it is to help undergraduates prepare for after graduation job hunting. In some cases the guide is a member of the faculty whose time is divided between teaching and vocational service. The more advanced step is to have the vocational directorship considered as a fulltime job. The purpose of such work is to enable the young man or woman just out of school to avoid several years of drifting and feeling about before finding the right work for his talents and training.

There is another great group of workers who receive almost on vocational guidance or advice of any sort and who therefore enter "blind alley" jobs, rarely advancing to better positions. These are the million or more children who leave school each summer and become wage earners.

As a rule the boys and girls who go to work as soon as the law permits receive no helpful advice from parents. It is estimated that nine-tenths of them take any work that offers, usually unskilled and with low wages. And because they have little or no technical training and no knowledge of the means for acquiring it, they stick to their first jobs or drift about in similar work without learning new processes or advancing to higher opportunities.

The Children's Bureau of the U. S. Department of Labor is strongly urging that vocational or placement departments be organized either in the public schools themselves or in close co-operation with them. It should be the work of such organizations to place the children in positions where opportunity to become proficient in more than one operation is offered, where there is possibility for advancement and for further training. It might be well, too, to require attendance at continuation schools, and to provide some sort of follow-up system to insure the young worker's having greater opportunities before his ambition by a monotonous round in a blind alley job.

No Essential Difference

The Washington correspondent of the New York World, supposed to have inside information, writes as follows:

"The reservations proposed by the Ohio Governor are considered to be mainly interpretative and do not, as in the case of the reservations proposed by the Republican Senators led by Senator Lodge, nullify or in any way affect materially the wording of the original draft of the Covenant."

Governor Cox's most important reservation is to Article X. Here it is:

"It will of course be understood that in carrying out the purpose of the League the Government of the United States must at all times act in strict harmony with the terms and the intent of the United States Constitution, which cannot in any way be altered by the treaty-making power."

The so-called Lodge reservation to Article X reads as follows:

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country or to interfere in controversies between nations. . . . under the provisions of Article X, or to employ the military or naval forces of the United States under any article of the Treaty for any purpose, unless in any particular case the Congress, which, under the Constitution has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide."

There is no essential difference between the Cox and the Lodge reservation; yet President Wilson declared the Lodge reservation "cut the heart out of the Covenant," and now declares (or his White House agents make him so declare) that he will accept the Cox reservation.

The porch at Marion, says the Washington Post (Ind.) is a mighty good sounding board as well as a whispering post.

Senator Glass who was quoted at Frisco as saying "Cox won't do" is now quoted as adding in Washington "Cox is the best man that could have been chosen."

Want to have people running after you and begging for permission to take your picture free of charge? Easiest thing in the world. Just get yourself nominated for the presidency.

Some men are lavish in the expression of praise for work well done—but most of it is given to themselves.

Don't be too hard on the fellow who delivers free lectures on the street corner. It's probably the only place he can induce people to notice him.

Matches that are supposed to have been "made in heaven" should stay there. The divorce court's jurisdiction does not extend that far.

Sap and Salt

By BERT MOSES.

You never find much wisdom where there is much noise.

Love to most girls is a mere matter of giggling and giggling.

No matter how mean a thing you do, it is easy to give a reason for doing it.

There isn't much difference between any of us when it comes to doing foolish things.

The last in the neighborhood to find out the vices of children are the children's own parents.

Man Power and Gasoline Prices

SO LONG as the acute shortage of man power in the United States continues, the demand for gasoline power will continue to increase.

Every increase in the demand for gasoline power will affect the price of gasoline, because, though petroleum production is continually increasing, it is not keeping pace with the demand for gasoline.

The latest figures available illustrating this point are for March, 1920.

Petroleum Production	Petroleum Consumption
Daily Average	Daily Average
1,177,129 bbls.	1,417,129 bbls.
Total for Month	Total for Month
36,491,000 bbls.	43,930,999 bbls.

If production continues for the rest of the year at the rate established in the first quarter, the total production of petroleum for 1920 will be in excess of 410,000,000 barrels.

If consumption continues for the rest of the year at the rate established in the first quarter, the total consumption of petroleum for the year 1920 will be in excess of 495,000,000 barrels.

Or, for the year 1920, consumption may be expected to exceed domestic production of petroleum by 85,000,000 barrels.

Because of its high-powered organization, trained through years of experience to the interpretation of conditions, the Standard Oil Company (Indiana) is anticipating increased need for gasoline and is bending every effort to supply the people of the Middle West with the gasoline they need.

It means much to the Middle West to be able to use freely that most important of all labor-saving devices—the automotive machine.

The Standard Oil Company (Indiana) believes that its greatest service lies in providing at all times, everywhere, and at the lowest possible prices, the gasoline needed to operate these engines of production.

Save Money—Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires of the 30 x 3, 30 x 3 1/2 and 31 x 4 inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell or Dorr, take advantage of the opportunity to enjoy true Goodyear mileage and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at our nearest Service Station.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread, \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread, \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size \$4.50 in waterproof bag.

Castor Oil Now Made Tasteless

Kellogg's Tasteless Castor Oil 100% Pure Castor Oil

The chemists of Spencer Kellogg & Sons, Inc., one of the world's largest manufacturers of castor oil, have perfected a remarkable process by which all nauseating taste is removed from this good old family remedy. Nothing is removed except the nauseating taste. Strength and purity remain the same a 100% pure castor oil. You don't have to shudder when you take Kellogg's Castor Oil. Doctors have always recommended castor oil, but everyone has dreaded taking it. Mothers can now give children castor oil without their even knowing what they are taking. Grown-ups will also appreciate this new form of the good old remedy. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c., 35c. and 85c.—(Adv.)

ANNUAL PLOWING MATCH

Oakland City Stages Novel Event
Event For All Kinds of Plowing

Oakland, City, Ind., July 28.—More than 5,000 people were to come here today to witness the annual plowing match of the Pocket Plowing Association.

Walking plows, riding plows, cultivators and tractors were in a 20 acre field, one half mile west of here.

Five premiums were offered in eight classes of entrants ranging from \$5 to \$20. Two silver loving cups were also offered for the tractor class.

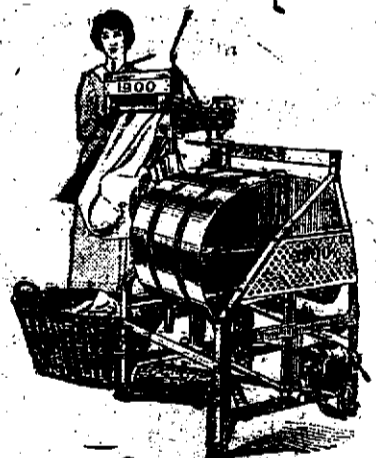

Foley's Honey and Tar Compound

IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "croup," and that tight, wheezing breathing. It soothes, too. It takes and checks whooping cough, measles cough and bronchial cough.

Every Child a Friend
"My little girl had been having the croup several days and I had tried everything I could think of. I got a box of Foley's Honey and Tar Compound and gave her a few drops. That night she slept well, her coughing stopped, and next day her cold was gone."

Mrs. R. M. Stanley, St. Louis, Mo. (Age 25) writes: "I was suffering from a severe attack of whooping cough and I was very weak. I got a box of Foley's Honey and Tar Compound and gave it to my little girl. She took it and she was cured. I was very glad."

It is a fact that for the last ten years it has been the most famous remedy for colds, coughs, croup, whooping cough, measles, and all other respiratory troubles. It is a fact that it has been the most famous remedy for colds, coughs, croup, whooping cough, measles, and all other respiratory troubles. It is a fact that it has been the most famous remedy for colds, coughs, croup, whooping cough, measles, and all other respiratory troubles.

The "1900" Cataract is the very latest and most up-to-date Electric Washing machine. It has no cylinder to lift out or bother with. Made only of extra heavy copper, tin lined, which never rusts and is so easy to clean. Washes cleaner and in much less time than any other machine. More simple. More labor saving. A real washing machine. We use no galvanized iron in any of our machines. It is so arranged that you can wash and wring at the same time. No complicated starting. A child can understand it. It is the simplest but most effective washer on the market. Received the Gold Medal which is the highest award, at the Panama-Pacific Exposition at San Francisco, 1915.

NOTES

TO TEACH FRENCH BOYS U.S. SCOUTING

Lorne Barclay Director of Boy Scouts of America to Establish School in Devastated France

MANY MEMBERS ARE ORPHANS

School to be Latest of the Many Activities of the American Committee Operations in France

The National Education Director of the Boy Scouts of America, Lorne W. Barclay, by invitation of the American Committee for Devastated France will establish and be director-general of a Camp School for the boys of the war-devastated regions.

The school will be in the form of a boys camp of large size located on the estate of the Marquis de l'Aigle on the Aisne River near Compeigne, on the edge of the greater battlefields, and will be the latest of the many activities of the American Committee, of which former United States Ambassador to France, Myron T. Herrick, is president, Miss Anne Morgan, vice-president and chairman of the executive committee and Mrs. A. M. Dike is the official director in charge of operations in France.

Many of the boys who will be in this great camp are orphans whom the war deprived of all relatives and there will be others who have not been in school and have been practically without care since the beginning of hostilities in 1914.

Mr. Barclay, who is one of the most widely experienced men in the Scout movement and is known in nearly every state in the Union as an energetic worker in the promotion of Scouting, has been given two months' leave of absence by the National Council of the Boy Scouts of America for this work as a further contribution by the Scouts of this country through the American Committee to the service being rendered unfortunates abroad especially those in the sorely stricken portions of France. "Hal" Fullerton, "Chief Grub Scout", whose great work during the war in increasing the food supply of farms and gardens will always be remembered, recently went to France under the auspices of the American Committee, where he has established a demonstration farm in the devastated district, with French Boy Scouts for his workmen, the object being to teach American scientific agriculture in an effort to speedily increase the food supply there.

"As a builder of physical efficiency, and morality as well, the superiority of the Boy Scouts of America program is generally recognized", said Mr. Barclay while busily engaged in preparing to sail from New York on the Mauretania, July 1st.

"It is for the purpose of adapting and applying the American methods of Scouting so far as possible to conditions in the devastated regions that we are going. It will be a work for the boys by the boys themselves. We are just going to show them how to go about Scouting in the American style, especially in reference to outdoor activities, which have been developed here on a scale unknown in France or any other foreign country.

"Naturally the boys we are going to deal with over there, many of them very poor and without parents and having long been without adult leadership, will be the hardest kind of material to work on, but that will make it all the more interesting and worth while. We will divide the boys in the camp into troops and patrols following our American plan, under Scoutmasters and Patrol Leaders who are now French Boy Scouts, and teach them team play, sanitation, personal health, and all that makes for clean morals, and we will emphasize the many outdoor activities for which the Boy Scouts of America are noted, taking with us samples of all kinds of tents and paraphernalia for up-to-date camping to serve as models to use in the Camp School there."

Frank C. Irwin who has been prominent in Scouting for many years, accompanies Mr. Barclay as one of his assistants. Mr. Irwin was formerly Secretary of the Boy Scouts of Saskatchewan, Canada, was a Boy Scout delegate from Canada to the coronation of King George and was the organizer and director for two years of the Boy Scouts of Mysore, India. Recently he has taken post-graduate work in Columbia University, and was Scoutmaster of a troop in Manhattan while studying there.

Another assistant with Mr. Barclay is Carlisle Bolton-Smith, a First

Mr. and Mrs. Roy Dolan of Glen ... entertained Sunday Mr. and ... Mrs. Al Rhodes and son Floyd of ... Saintstown, Mr. and Mrs. Charlie ... Dolan and family of Fairview and ... Mrs. Sarah Cahn of Omaha, Neb.

Mrs. E. L. Aikins delightfully ... entertained a number of her friends ... and neighbors this afternoon with an ... informal social party at her home in ... Raleigh, honoring her daughter, Mrs. ... Orville Estell of Oklahoma, who is ... visiting her mother for a few weeks.

All students and former students ... of the New Salem high school are ... cordially invited to attend the basket ... dinner to be given in Glen-Miller ... park, Richmond, Ind., Sunday under ... the auspices of the class of 1900- ... 1901. The dinner will be served ... promptly a 12:30 o'clock.

Honoring the 86th birthday anni- ... versary of Mrs. Martha J. Boys, ... who lives with Mr. and Mrs. Robert ... Brown in Milroy, about 35 guests ... were present at a dinner party yes- ... terday and spent the afternoon with ... Mrs. Boys. Nieces and relatives ... were present from Rushville, And- ... erson and Greensburg. Mrs. S. A. ... Bartlett, who lives with Mr. and ... Mrs. E. B. Miller of this city, was ... the oldest guest present, being al- ... most 90 years old. She is a sister ... of Mrs. Boys.

At eight o'clock this morning a ... pretty wedding was solemnized at ... the St. Mary's Catholic Church when ... Miss Grace Couch, daughter of Mr. ... and Mrs. William Couch of North ... Sexton street, was united in mar- ... riage to William O'Brien, son of Mr. ... and Mrs. T. J. O'Brien of Conners- ... ville. To the strains of Mendelssohn's ... wedding march, the bridal party ... marched down the aisle to the altar ... led by Miss Ruth Cauley, who acted ... as the little flower girl. She was ... dressed in a dainty white organdie ... dress and carried a basket of sweet ... peas. Next in the procession were ... the brides-maid, Miss Gertrude O' ... Brien, sister of the bridegroom, ... who was dressed in white, organdie ... with a large picture hat to match, ... and the best man, John Brennan, of ... Connersville. Following were the ... bride and bridegroom. Miss Couch ... was gown in a lovely white crepe ... de chine dress and wore a wedding ... veil draped in cap effect and caught ... with a wreath of orange blossoms. ... She carried a bridal bouquet of ... bride's roses. During the ceremony ... "I Love You Truly" was played by ... Mrs. Francis Knecht on the organ. ... Following the ceremony, a pret- ... tily appointed three-course wedding ... breakfast was served at the home of ... the bride's parents. The color ... scheme used in the decorations was ... pink and white. Immediately after ... the breakfast Mr. and Mrs. O'Brien ... left on a wedding trip through the ... East.

Among the out-of-town guests ... present were Mr. and Mrs. Roscoe ... Best, Guy McMath and Mr. and ... Mrs. O'Brien, of Connersville; Mr. ... and Mrs. Philip McCoy, of Cincin- ... nati, Miss Mary Beason of Indi- ... anapolis and Mr. and Mrs. John ... Barrett, of Dayton, Ohio.

The bride is well known in this ... city, having attended the local high ... school. The bridegroom is employed ... by the Rex Manufacturing Company ... in Connersville.

TAKES VACATION IN DUBLIN

Will Prndergast Writes of Pleasant Visit in Ireland

Will Prndergast of Brooklyn, N. Y., former Rushville man, is spending his vacation in Dublin, Ireland, according to a letter received here, instead of coming back to his old home. He makes no mention in the letter of the civil strife which is taking place there between the Sinn Féiners and Unionists.

Mr. Prndergast says Dublin is a beautiful city where every resident seems to take pride in keeping his home pleasant to the eye, and declares that the streets are as clean as glass from constant cleaning. Mr. Prndergast writes that he is enjoying the present visit so much more than previous ones because it is a vacation. He expects to come to Rushville this fall.

Class Boy Scout whose home is in Memphis, Tenn. He is an undergraduate student at Amherst. His specialty in the Camp School in France will be aquatics, including swimming, life-saving, and many forms of water sport new to that country. He will also be in charge of boxing, wrestling and similar lines of sport.

VISITS OLD FRIENDS

J. T. Wait, president and general manager of the J. T. Wait Realty company of Indianapolis, was in Rushville today visiting old friends and looking after business matters. He formerly resided in Connersville but now lives in Irvington with his daughter and has offices at the Denison hotel.

TO PREACH AT GLENWOOD

The Rev. G. H. Lawton, pastor of the Christian church in Arlington, will preach to the Christian congregation in Glenwood tonight at eight o'clock. As the Christian membership there does not have a church, the meeting will be held in the school building of that place.

DROPS DEAD WHILE ENTERING STORE

Andrew J. Fisher, 76 Years Old, Is Stricken With Heart Disease Tuesday at Blue Ridge

WIDOW AND TWO CHILDREN

Alfred J. Fisher, age seventy-six years, widely known resident of Blue Ridge, dropped dead with heart disease while entering the Marshall Brothers general store in Blue Ridge yesterday. He had gone to the store to do some trading and was carrying two chickens and a basket of eggs. Mr. Fisher had just stepped inside the door when he was stricken.

Mr. Fisher has been afflicted with heart trouble for two years, but relatives had no intimation yesterday that he was not feeling well. He was born and reared in the Blue Ridge neighborhood and lived here

all of his life. The deceased was a member of the Odd Fellows lodge at Blue Ridge for forty years.

Surviving him are the widow, Mrs. Matilda Fisher; son and daughter, Mrs. W. O. Squibb of Indianapolis, and Louis Fisher of Greensburg; one brother, the Rev. Henry Fisher of Billings, Mo., and one sister, Mrs. Nancy Baker of Blue Ridge. There are also six grand children and six great-grandchildren.

MINSTREL REHEARSAL

Boys and girls having a part in the second act of the K. of P. minstrels are requested to be at the K. of P. hall Friday night at 7:30 o'clock.

BOY SCOUTS TO MEET

The Boy Scouts will meet in their new meeting place over the city market tonight at seven-thirty o'clock. All Scouts are urged to be present.

The K. of P. Minstrels

The most practical and easiest distinction is one second, less than from nine to twelve successive notes.

GWYNNEVILLE BOYS RUN OFF

Reach Richmond But Are Convinced About Returning Home

Charles Ray and Albert McConnell, two 15-year-old lads residing with their parents on farms near Gwynneville, Shelby county, firing of rural life and attracted by the white lights of the city arrived here Tuesday, footsore and fatigued, says a Richmond, Ind., dispatch today.

Sheriff Carr convinced the lads that residence on a farm these days is preferable to fighting the high cost of living in cities, and so they decided to return home. They had enough money to pay their fares.

Mark Twain's Dice Thought

When Mark Twain wrote "Huckleberry Finn" he pointed this introduction: "Persons attempting to find a motive in this narrative will be prosecuted; persons attempting to find a moral in it will be banished; persons attempting to find a plot in it will be shot."

No Regrets From Taking Dreco

Declares the Great Root and Herb Medicine Went Straight to the Spot.

Relieved Headaches, Constipation Gas in the Stomach Indigestion and Filled Him With Vigor and Vitality.

"I will never regret taking Dreco for it went straight to the spot which is something no other medicine ever did for me," declared Mr. Andrew Frederick, a well known and highly esteemed employer of Bechtel's Wood Work Factory, Marion, Ind.

"I have suffered years from indigestion, dull aching headaches, gas in the stomach and was daily constipated unless I would take some kind of medicine all along. I have finished my second bottle of Dreco and I feel like I never saw a sick day in my life. I eat big meals and never have the gas any more, sleep all night long, bowels are free and regular. I feel full of vim and vitality and go about my work like it was play."

Now is the time to take a good reliable tonic to build up the system and get yourself in first rate trim for the hot weather Dreco is a powerful tonic, yet gentle in its action. Good for young or old alike.

All druggists now sell Dreco and it is being especially introduced in Rushville by F. B. Johnson and Co.

"THE best car of its class in the world" is an expression which the Hupmobile faithfully lives up to.

EPJOLIGANS TO FORM A FIRST VOTERS CLUB

Work Will be Started August 1 By Republican State Committee, Aided by County Chairmen

MONTICELLO MAN IN CHARGE

Indianapolis, Ind., July 28.—Organization of the "first voters" in Indiana will be taken up the first of August by the Republican State Committee, co-operating with the county chairmen, it was announced today by Fred E. Schortemeier, secretary of the committee.

Schuyler C. Mowrer, of Monticello, a law student at Indiana university, has been placed in charge of this work. Mr. Mowrer was in the army during the war and was one of the fifty soldier speakers selected from the American Expeditionary forces to return to the United States and speak in behalf of the Third and Fourth Liberty Loans.

The purpose of the "first voters" clubs will be to bring the young men who are just entering politics together in order that they may hear the issues intelligently discussed and adequately acquaint the members with the platform and the principles of the Republican party. Speakers will be provided at all meetings.

The clubs will also give the young men of the state an opportunity to express their ideas and will give the element the young men represent a hand in party affairs, Mr. Schortemeier pointed out.

PAPER MILL EMPLOYEE HURT

James Perkins of Carthage Recovering From Injuries

James Perkins, an employee at the Carthage paper mill, is recovering from an injury which he sustained Saturday when his left ankle was crushed while moving a four ton piece of machinery between two buildings, a crow bar giving way, dropping the machinery on his foot. One other man was also injured, but not seriously. Mr. Perkins and his wife came to Carthage last week from St. Louis, Mo., and today he was reported to be recovering nicely from the injury. It is considered fortunate that the crow bar held the machinery up off the remainder of his leg, as it would probably have crushed his entire leg off, as the machinery was very heavy. Ten workmen were engaged in moving it, and were pushing it with rollers and crow bars.

When the train came in back in 1910

TEN years ago you might have seen one or two automobiles waiting outside the station, when the weather was pleasant.

Today the square is crowded with them. And most of the cars you generally see there are moderate-price cars.

Anybody who tells you that owners of moderate-price cars are not interested in the quality of their tires has never met very many of them.

We come in contact with the small car owner every day and we have found that he is just as much interested as the big car owner

There is one tire, at least, that makes no distinction between small cars and large cars so far as quality is concerned—the U. S. Tire.

Every U. S. Tire is just like every other in quality—the best its builders know how to build.

Whatever the size of your car, the service you get out of U. S. Tires is the same. It isn't the car, but the man who owns the car, that sets the standard to which U. S. tires are made.

We feel the same way about it. That's why we represent U. S. Tires in this community.

Alice Brady at Princess Today

"The Fear Market," a Realart Production which is to be presented at the Princess today, is a photoplay attraction which critics who have followed the development of the silver sheet as a medium for the presentation of really big dramatic ideas have declared ranks among the foremost of film dramas.

Alice Brady, the film fans' favorite in the part of Sylvia Stone, is called upon to portray the gamut of human emotions and does so with a tensivity that is most convincing and a subtlety which causes the calloused critics to speak of her work as ranking with the best ever seen on the screen.

In no sense is "The Fear Market" a preachment. It is an tale of action and love which tugs at the heart strings and keeps the spectator entranced from start to finish.

The story is by Princess Troubetzkoy, and when "The Fear Market" made its appearance in 1914,

created a sensation wherever English is read. It was apparent that the author's use of language on an episode which filled the front pages of the press the world over.

Miss Brady is supported by a cast of screen and stage actors well known to theatre-goers for their histrionic ability.

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying Zemo. Furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. It is not greasy, salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.
